Ref. No. CIL/C-4B/RFP/2020/50

Date:17.08.2020

Dear Sir / Madam,

1. CIL invites proposals from **Reputed Global Level Organisations / Entities** in response to this RFP for empanelment of Third Party Agencies for collection, preparation and analysis of coal samples at its loading points forming a part of the RFP in accordance with the Terms & Conditions set out under the RFP.
2. A Bidder may be selected based on the criteria and procedure as set out in this RFP.
3. The RFP includes the following sections

| |
|---|
| SECTION-I: DISCLAIMER, INTRODUCTION AND SCOPE OF WORK |
| SECTION-II: INSTRUCTION TO BIDDERS |
| SECTION-III: PRE-QUALIFICATION (PQ) CRITERIA |
| SECTION-IV: PRICE BID |
| SECTION-V: EVALUATION CRITERIA & METHOD OF EVALUATION |
| SECTION-VI: GENERAL TERMS & CONDITIONS |
| SECTION-VII: DETAILED MODALITY OF SAMPLING |
| SECTION-VIII: EXHIBITS & ANNEXURES |

4. Bidders are advised to study this RFP document carefully before submitting their proposals. Submission of a proposal in response to this RFP shall be deemed to have been done after careful study and examination of this document with full understanding of its terms, conditions and implications.
5. The time, date and venue details related to proposal submission are mentioned in the data sheet. Proposals that are received after the last date of submission of the proposal will not be considered and evaluated.

6. For any information and clarifications please contact the following;

SECTION-I:

DISCLAIMER, INTRODUCTION, AND SCOPE OF WORK

1. DISCLAIMER:

This Request for Proposal (RFP) is neither an agreement nor an offer by Coal India Ltd (CIL) to the Prospective Third-Party Agencies (BIDDERS) or any other person. This RFP includes statements which reflect various assumptions and assessments arrived at by CIL in relation to the BIDDERS.

Information provided in this RFP to the Prospective BIDDERS has been collated from several sources, some of which is subject to interpretation of the applicable law. The information given is not intended to be an exhaustive account of statutory requirements and should be used as or for reference only.

CIL makes no representation or warranty and shall have no liability to any person, including any Prospective BIDDER under any law, statute, rules or regulations or tort, principles of restitution or unjust enrichment or otherwise for any loss, damages, cost or expense which may arise from or be incurred or suffered on account of anything contained in this RFP or otherwise.

CIL also accepts no liability of any nature whether resulting from negligence or otherwise howsoever caused, arising from reliance by any Prospective BIDDER upon the statements contained in this RFP.

Notwithstanding anything contained in this RFP, CIL may, in its absolute discretion, but without being under any obligation to do so, update, amend or supplement the information, assessment, process or assumptions contained in this RFP.

The issuance of this RFP does not imply that CIL is bound to select or shortlist any Prospective BIDDER and CIL reserves the right (without incurring any liability) to reject all or any of the Prospective BIDDERS, as the case may be, without assigning any reason whatsoever.

Each Prospective BIDDER shall bear all its costs associated with or relating to registration, preparation and submission of its RFP or relating to its RFP. Nothing contained in this Request for Submission of RFP shall be binding on CIL or confer any right on the Prospective BIDDERS.

Pursuant to this RFP, CIL will be uploading on the Electronic Platform (as defined below) the definitive document(s). In case of any inconsistency between this RFP and the definitive document(s), the definitive document(s) shall be final and shall prevail, in the manner specified under the relevant document.

2.0 INTRODUCTION

- 2.1 Coal India Limited (CIL) is a Maharatna CPSE under Ministry of Coal, Government of India and is the single largest coal producing company in the world. It operates through its subsidiaries namely, Central Coalfields Limited (CCL), Bharat Coking Coal Limited (BCCL), Eastern Coalfields Limited (ECL), Mahanadi Coalfields Limited (MCL), South Eastern Coalfields Limited (SECL), Western Coalfields Limited (WCL), Northern Coalfields Limited (NCL), CMPDIL and North Eastern Coalfields directly under control of CIL, spread over Eight states (provinces) in India namely Jharkhand, West Bengal, Orissa, Chhattisgarh, Madhya Pradesh, Uttar Pradesh, Maharashtra

and Assam. As on 01st April 2019, it operates 364 Mines distributed in its subsidiaries. CIL also operates 16 coal washeries. For more details may visit www.coalindia.in

- 2.2 During 2019-20, CIL produced 602.14 Million Tonnes (MT) of coal and achieved an off-take of 581.73 Million Tonnes (MT) out of which despatch to Power sector is 465 MT with NTPC as the major consumer (149.00 MT) provisionally.

During 2019-20, CIL's subsidiary wise production and offtake (provisional) is as follows:

Production (Million Tonne)

| | ECL | BCCL | CCL | NCL | WCL | SECL | MCL | NEC | CIL |
|------------|-------|-------|-------|--------|-------|--------|--------|------|--------|
| Production | 50.41 | 27.73 | 66.89 | 108.05 | 57.64 | 150.55 | 140.36 | 0.52 | 602.14 |
| Offtake | 49.28 | 28.75 | 67.16 | 107.42 | 52.58 | 141.97 | 134.01 | 0.56 | 581.73 |

Mode wise Offtake (Million Tonne)

| | RAIL | ROAD | MGR | CONVEYOR | ROPEWAY | TOTAL |
|-----|--------|--------|--------|----------|---------|--------|
| CIL | 282.70 | 182.13 | 103.90 | 11.25 | 1.75 | 581.73 |

- 2.3 The coal supplies by CIL to its various consumers through different modes are subjected to sampling and analysis as per the prevailing procedure/guidelines, at the Loading/Dispatch Points by Third Party Agencies (BIDDERS) which form the basis for raising the bills. Presently Third Party sampling is being carried out by CSIR-CIMFR and QCI. CIL intends to expand its base of Third Party Agencies.

3.0 SCOPE OF WORK:

- 3.1 Third Party Agency (BIDDER) shall be wholly responsible for collection, preparation and analysis of coal samples in context of coal supplies (hereinafter referred to as ACTIVITY) to all types of consumers, as per applicable procedure, legislation and guidelines in this regard from time to time, in a transparent and ethical manner as mentioned in the subsequent sections, from the loading points of Subsidiaries viz. CCL, BCCL, ECL, MCL, SECL, WCL, NCL including NEC with their coal producing units / dispatch points spread over in different States of India i.e. West Bengal, Jharkhand, Madhya Pradesh, Uttar Pradesh, Assam, Chhattisgarh, Orissa, Maharashtra etc.
- 3.2 TPA shall be randomly selected from the list of empanelled BIDDERS for carrying out the ACTIVITY. The quantity to be sampled by any particular empaneled BIDDER shall depend on the Tripartite Agreements that the BIDDER selected randomly will be signing with the consumers and the Coal Company.
- 3.3 The cost of the ACTIVITY undertaken by BIDDER is to be born by the consumer and the respective Coal Company on 50:50 basis.
- 3.4 Activities to be undertaken for 3rd Party Sampling, Testing and Analysis would be:
- 1) Sample Collection – Collection of samples at Loading end of the coal companies
 - 2) Preparation of Laboratory Samples

- 3) Testing and Analysis of prepared samples at NABL accredited Laboratories owned by BIDDER or subsidiaries of CIL. The rate of testing by CIL owned laboratories shall be charged at the rate of 50 paise per tonne.
 - 4) Preparation of Report for samples
 - 5) Documentation and Communication of Report
- 3.5 Detailed documentation of coal sampled against the supplies to consumers by Rail, Road, MGR, Conveyor, Ropeway etc. is to be furnished by BIDDER to Coal Companies and consumers within the stipulated time, which shall be the basis of raising the bills for sampling on monthly basis.
- 3.6 For the purpose of collection, preparation, transportation and analysis of coal sample or part of the job thereof, BIDDER shall deploy qualified personnel at different locations from the list of personnel supplied.
- 3.7 However, Testing and Analysis of prepared samples shall be undertaken at a NABL accredited Laboratory owned by TPA or NABL accredited laboratories of CIL.
- 3.8 In case of a BIDDER engaging any personnel, in the capacity as Principal Employer, it shall be the sole responsibility of BIDDER to comply with all statutory requirements including relating to workmen engaged for such purpose, at all point of time. Any act of omission and commission by the personnel so engaged shall be construed as that by the BIDDER only.
- 3.9 After empanelment, BIDDER shall have to sign a Tripartite agreement with the consumers and respective coal companies of CIL and to complete all other requirements/formalities before commencement of the ACTIVITY.

SECTION-II:

**INSTRUCTIONS TO BIDDERS
(ITB)**

4.0 REQUEST FOR PROPOSAL (RFP):

- 4.1 Coal India Limited (CIL) invites RFP through on-line application process on the website <https://coalindiatenders.nic.in> from the eligible bidders. For bidding online, the bidders must possess Class-2 or Class-3 Digital Signature Certificate (DSC) issued from any agency authorized by Controller of Certifying Authority (CCA), Govt. of India and which can be traced up to the chain of trust to the Root Certificate of CCA. The RFP document is also available on website <https://eprocure.gov.in> for download by the prospective bidders free of cost. There will be no sale/ distribution of Hard Copy of the RFP Document.

Note: The complete RFP document shall be available on the website of Coal India Limited(www.coalindia.in), Central Public Procurement Portal (www.eprocure.gov.in) and CIL's e-Procurement Portal (<http://coalindiatenders.nic.in>). and can be downloaded by the bidder up to the bid submission end date.

In case 3 Bids are not received within the originally stipulated time, the due date of tender shall be extended by 02 working days and thereafter by 05 working days automatically by the system.

Even after granting two extensions, if less than 3 Bids are received, tender shall be considered for opening.

In case no offers are received, tender will be cancelled.

4.2 Earnest Money/Bid Security-

Earnest Money can be deposited by following modes only:

- (a) Online fund transfer through Net banking using Payment Gateway available on portal.
- (b) NEFT/ RTGS from any Scheduled Bank to the Virtual Pool Account of the Purchaser strictly as per the challan generated by the bidder on e-procurement portal.

No other mode for payment is acceptable for submission of EMD in INR.

The EMD payment through NEFT/RTGS mode should be made well ahead of time to ensure that the EMD amount is transferred to the Purchaser's Bank account before bid submission, otherwise the bidder shall not be able to freeze bid in the portal. It is advised that the payment of EMD should be made at least 2 days prior to due date and time of submission of tender to avoid any complication in submitting online bid before the scheduled last date and time of submission. It is further advised that after successful payment, bidder should confirm receipt of EMD at Purchaser's A/C through "Payment Verification" Link available on the portal. Freezing of bid can be done only after completion of EMD submission process.

If the payment is made by the bidder within the last date and time of bid submission but is not received in Virtual Pool Account of the Purchaser within the specified period due to any reason, the bid will not be accepted by the System/ Purchaser. However, the EMD will be refunded to the bidder's account automatically.

The Bank account used by the bidder for submission of EMD should remain available till the complete processing of the tender for refund of the EMD.

The bidder will submit the Bid along with Earnest Money/Bid of Rs. 50 Lacs.

- 4.3 Interested bidders are invited to submit their offer in the form of SINGLE STAGE TWO PART SYSTEM (PART-I and PART-II to be submitted simultaneously) against this RFP for empanelment as BIDDER to be engaged by Consumers and Coal Companies jointly for undertaking the ACTIVITY at different Coal producing units / dispatch points of the Subsidiaries of CIL.
- 4.4 Each bidder to submit only one bid either as a partnership firm or as a public limited/private limited Co. A bidder who submits or participates in more than one offer shall cause all the offers with the bidder's participation to be disqualified.
- 4.5 Under SINGLE STAGE TWO PART SYSTEM, PART-I shall constitute of Pre-qualification criteria details and other relevant clauses (except price bid), whereas PART-II shall be exclusively for the price bid.
- 4.6 The Bidder shall quote single rate in Rs./TONNE (excluding GST but including all other taxes) for the ACTIVITY which shall be uniformly applicable across all subsidiaries of CIL irrespective of the given quantity.
- 4.7 **Conflict of Interest:** The bidder as referred to in clause no. 3.6 above, should not be a consumer of coal or in the business of production/trading of coal either in his own name or as a partner in a Partnership firm or as a sister concern or as a holding company having any such subsidiary or as a subsidiary of any such holding company.

A declaration to this effect must be submitted by the bidder along with the offer as per **Annexure-1**. An offer without such declaration shall not be taken in to consideration.

- 4.8 Bidders are requested to furnish their basic details for introductory purpose on their letter head (such as: Name of the firm, Year of Establishment, Presence in India and abroad, Name of Parent Company, Country, Turnover, website address, etc.).

5.0 SUBMISSION OF RFP DOCUMENT

- 5.1 The complete RFP document shall be available on the website of Coal India Limited (www.coalindia.in), Central Public Procurement Portal (www.eprocure.gov.in) and CIL's e-Procurement Portal (<http://coalindiatenders.nic.in>). There is no fee and the applicants can download the RFP document free of cost. The offer have to be submitted online through the CIL's e-procurement portal website <https://coalindiatenders.nic.in>, based on the RFP document, uploaded in websites mentioned above. The prospective bidders have to get themselves enrolled on the above portal and confirm for accepting user portal agreement. The Online Bidder Enrollment is free of cost and one-time activity only.

5.2 SEEKING CLARIFICATION BY THE BIDDERS

The bidder may seek clarification online within the specified period. The identity of the Bidder will not be disclosed by the system. The department will clarify as far as possible the relevant queries of bidders. The clarifications given by department will be visible to all the bidders intending to participate in that tender. The clarifications may be asked from the day of e-Publication of NIT. The period for seeking clarification by bidder will be up to 7 (seven) days before the end date of bid submission. The replies to clarifications sought by bidders should be given by the department at least 2 (two) days before the end date of bid submission.

In exceptional cases where a large number of queries from bidders are expected, the period for seeking clarification may be kept maximum upto 15 (fifteen) days before the end date of bid submission, but the minimum period given to the bidders for seeking clarification should not be less than 10 (ten) days in such cases.

The Tender Inviting Authority will be responsible for replying/responding to the clarifications online within the prescribed time frame. However, if the Tender Inviting Authority feels that the query is of such a nature that advice of tender committee or any other authority is required to give clarification, he may do so to reply the queries within the prescribed time limit. The queries of bidders clarified online and also unanswered queries of bidders shall be referred in the Tender Committee Report (TCR).

5.0 LANGUAGE OF RFP

The RFP and all correspondence incidental and related to RFP shall be in English language. Any printed literature and document submitted in any other language should be accompanied by authenticated English translation, in which case, for purpose of interpretation of the RFP, English translation shall govern. Responsibility for correctness in translation shall lie with the Bidder submitting the RFP.

7.0 COST OF RFP BIDDING

The Bidder shall bear all costs associated with the preparation or delivery of its RFP document, participating in discussions etc. including costs and expenses related with visits to CIL's office and the site(s). CIL will in no case be responsible or liable for those costs and expenses regardless of the outcome of the final empanelment.

8.0 RIGHT TO ACCEPT/ REJECT

CIL reserves the right to accept or reject any / all RFP at any time without thereby incurring any liability to the affected Bidder or any obligation to inform the affected Party/Parties of the grounds for the CIL's action.

9.0 REQUIREMENTS FOR PARTICIPATION IN RFP

9.1 In order to submit the online offer on CIL's e-Procurement portal <https://coalindiatenders.nic.in>, the bidders should meet the following requirements:

- a. PC connected with Internet (For details, visit link "Resources Required" on home page of CIL's e-Procurement portal (<https://coalindiatenders.nic.in>)). It shall be the bidder's responsibility to comply with the system requirement i.e. hardware, software and internet connectivity at bidder's premises to access the e-Procurement website. CIL shall not be liable to the bidders under any circumstances for any direct/indirect

loss or damages incurred by them arising out of incorrect use of the e-Procurement system or internet connectivity failures.

- b. Class II or Class III Valid Digital Signature Certificate (DSC) issued from the agency authorised by Controller of Certifying Authority (CCA), Govt. of India and which can be traced up to the chain of trust to the Root Certificate of CCA
 - c. Online Enrollment/Registration with CIL's e-Procurement portal (<https://coalindiatenders.nic.in>) with valid Digital Signature Certificate (DSC) - The online enrollment/registration of the bidders on the portal is free of cost and one-time activity only. The registration should be in the name of bidder whereas DSC holder may be either bidder himself or his duly authorized person. It shall be the responsibility of the bidder to ensure that they get registered with the CIL's e-Procurement portal well in advance and download the documents before the last date and time for the same.
- 9.2 No separate intimation in respect of corrigendum to this RFP (if any) will be sent to bidders who have downloaded the documents from website. The bidders are advised to see the same websites time to time for corrigendum if any, from where the original RFP document has been downloaded.
- 9.3 Bidders should download the complete RFP including the Annexures and read carefully before filling the details and uploading the documents.
- 9.4 The bidders must upload all the documents required as per the terms of RFP. Any other document uploaded which is not required as per the terms of the RFP may not be considered.
- 9.5 All notices to the bidders shall be sent by e-mail only during the process of finalization of RFP by CIL through e-procurement portal. Hence the bidders are required to ensure that their corporate e-mail -id is provided / updated during the registration of vendor with e-procurement portal. Bidders are also requested to indicate their valid corporate e-mail- id and mobile no. of authorized representative for communications through e- mails / SMS alerts (if any).
- 9.6 Modification of the submitted bid shall be allowed online only before the deadline of submission of RFP and the bidders may modify and resubmit the bid online as many times as they may wish. Bidders may withdraw their applications online within the last date and time of bid submission.
- 9.7 No modification of the bid or any form of communication with CIL or submission of any additional documents, not specifically asked for by CIL, shall be allowed and even if submitted, they shall not be considered by CIL after opening of the bid.
- 9.8 In case of any technical mistake in online offer and NIC confirming that there is no fault from their side then CIL shall not be held responsible for the consequences and no correspondence in this regard shall be given any cognizance by CIL.

SECTION – III:

PRE-QUALIFICATION (PQ) CRITERIA

10.0 Pre-Qualification/Eligibility Criteria

The bidder shall fulfill the following criteria to be eligible for being considered for empanelment as a BIDDER for the required schedule of work.

10.1 Legal Status of Bidder:

The bidder should be registered in India under the Companies Act 2013 or a Partnership Firm registered under the Indian Partnership Act 1932.

The bidder should submit copy of Certificate of Incorporation/Registration, as applicable.

10.2 EXPERIENCE CRITERIA

The bidder should meet the following experience criteria.

10.2.1 Work Experience: The bidder must have in its name, experience of having successfully executed (completed) works of similar nature (Collection, Preparation, Analysis of Coal sample & Documentation) for minimum value of INR 50.00 crores (excluding taxes and levies but including simple weightage of 5% per FY) either in independent form (single work order) or in consolidated form (multiple work orders) in any Financial year during last 3 (three) Financial years ending 31.03.2020 in India and/or abroad.

Note: A Financial Year means 1st April to 31st March of next year.

In case the experience has been earned by the Bidder as a company, then 100% value of the experience will be considered against eligibility. But if the experience has been earned by the Bidder as a partner in a partnership firm then the proportionate value of experience in proportion to the actual share of Bidder in that Partnership firm shall be considered against eligibility.

To arrive at the value of experience, simple weightage of 5% per financial year shall be considered for each completed Financial Year.

To arrive at the value of work (in INR) for the works executed abroad, if any, the exchange rate applicable as on the 31st March of the corresponding Financial Year, as per State Bank of India, shall be taken into consideration.

In case the bidder is a Partnership firm, the work experience of any or all of the individual partners of the Partnership firm or the Partnership firm itself may be furnished as the work experience of the bidder.

Data/Document to be furnished by the bidder under format at **Exhibit 1 and Exhibit 2.**

10.2.2 Global Presence: The bidder shall be a Reputed Global level agency.

The Bidder who have successfully executed (completed) work of similar nature for clients/parties in minimum 2 (two) countries apart from India shall be considered as a Reputed Global level agency.

Data/Document to be furnished by the bidder under format at **Exhibit 3.**

10.2.3 NABL accredited Coal testing Laboratories: Bidder must have at least 03 (Three) coal testing labs in India in its own name with NABL accreditation preferably with Lab Information Management System (LIMS) Controls. However, LIMS shall be a prerequisite prior to signing of Tripartite Agreement with subsidiaries of CIL and Consumers.

In case the Bidder is a Partnership firm, the NABL accredited testing laboratory must be in the name of any of the partner(s) of Partnership firm or Partnership firm itself.

Data/Document to be furnished by the bidder:

- i. Name & address of the NABL accredited laboratories owned by the bidder
- ii. Valid Accreditation certificate

10.2.4 NABCB certification: Bidder should be accredited for coal scope by National Accreditation Board of Certification Bodies (NABCB) for the Third Party sampling, testing and analysis of coal.

Data/Document to be furnished by the bidder:

- i. Valid Accreditation certificate

10.2.5 Availability of Resources: Bidder shall have to provide all tools and tackles, consumables, manpower, transport arrangements etc. wherever required with proper supervision and arrangements to conduct the job and ensure that personnel employed are competent and have adequate qualifications for the jobs assigned to them. Supervisors so employed by them should be Graduates in Chemistry or Graduates/Diploma holders in Chemical Engineering and must be conversant with IS-1350. Sample collectors and preparators must be conversant with IS-436

Data/Document to be furnished by the bidder on its letter head:

- i. Detailed list of Key Management Personnel (KMP)
- ii. No. of competent personnel, their qualification and experience.

10.2.6 Special Equipment/Technique: Bidder must have specialized modern equipment/technique/software, as per BIS or equivalent for the ACTIVITY boasting Transparency, Speed, Least Human Interference etc.

Data/Document to be furnished by the bidder:

- i. Brief of the specialized modern equipment/Technique/software etc., highlighting its experience in the past and its suitability for the ACTIVITY.
- ii. Work order number & the name of the client/party for whom the Equipment/Technique/Software was put in to use.

10.2.7 Bidder shall have documented code of ethics/code of integrity and shall have independent compliant organization structure.

Data/Document to be furnished by the bidder: A self-declaration on its letter head.

11.0 FINANCIAL CRITERIA

The bidder should meet the following financial criteria.

- 11.1 **Turnover:** The Bidder shall have a minimum annual turnover of INR 100 Crores in each of the 03 consecutive Financial Years (FY 2017-18, 2018-19 & 2019-20) as per the audited annual financial statement (In case, the annual financial statement of the FY 2019-20 are unaudited due to extended timelines, the unaudited results certified by the Chartered Accountant shall be submitted.)

The Bidder shall submit a Certificate to this effect issued by a Practicing Chartered Accountant having a membership number with Institute of Chartered Accountants of India (ICAI). Such certificate should contain the Unique Document Identification Number (UDIN). The certificate shall be submitted as per format at **Exhibit 4**.

- 11.2 **Working Capital:** The bidder must submit the certificate of possessing adequate working capital of at least INR 20 Crores inclusive of access to lines of credit and availability of other financial resources to meet the requirement, issued by a Practicing Chartered Accountant having a membership number with Institute of Chartered Accountants of India (ICAI). Such certificate should contain the Unique Document Identification Number (UDIN). The bidder should possess the working capital issued within 3(three) months prior to the date of opening of RFP.

In case, access to lines of credit constitutes the availability of working capital, Banker's certificate (Scheduled commercial bank) shall also be submitted regarding availability of access to credit (issued within 3(three) months prior to the date of opening of RFP) to meet the above eligibility criteria.

Data to be furnished by Bidder:

- i. Amount of available working capital inclusive of lines of credit and availability of other financial resources.
- ii. Date on which the bidder possesses the required working capital
- iii. Name of the Chartered Accountant (CA)
- iv. Membership Number of CA with Institute of Chartered Accountants of India who certifies the bidder's working capital on a particular date.
- v. Date of Issue of Certificate.
- vi. Certificate should contain the Unique Document Identification Number (UDIN)

- 11.3 **Permanent Account Number:** The bidder should possess a valid PAN issued by Income Tax Department, Govt. of India. Documentary evidence to this effect shall be submitted.

- 11.4 **Goods and Service Tax Registration certificate:** The Bidder shall have valid GST registration certificate. Documentary evidence to this effect shall be submitted.

SECTION – IV:

PRICE BID

12.0 Price Bid:

- 12.1 The Bidder shall quote single rate in Rs./TONNE (excluding GST, but including other taxes/levies, if any) for the ACTIVITY which shall be uniformly applicable across all subsidiaries of CIL irrespective of the given quantity.
- 12.2 The Price-bids shall be unconditional.
- 12.3 The rate quoted should be reasonable and justified.
- 12.4 The bidder shall closely study specification in detail and scope of work alongwith other terms and conditions which govern the rate being quoted.
- 12.5 The Price Bid which is incomplete and not submitted as per instruction given above shall be liable to be rejected.

SECTION – V:

EVALUATION CRITERIA & METHOD OF EVALUATION

13.0 **Evaluation Criteria and Method of Evaluation:**

13.1 Screening of RFPs shall be carried out as per eligibility criteria mentioned herein above based on testimonials/declarations submitted in PART-I.

13.2 **Clarification of Bids / Shortfall / Confirmatory Documents :**

1. During evaluation and comparison of bids, the purchaser may ask the bidder for clarifications on the bid. The request for clarification shall be communicated to the bidder via the purchase portal, asking the bidder to respond by a specified date, and also mentioning therein that, if the tenderer does not comply or respond by the date, his tender will be liable to be rejected. Depending on the outcome, such tenders are to be ignored or considered further. No change in prices or substance of the bid shall be sought, offered or permitted. No post-bid clarification at the initiative of the bidder shall be entertained.
2. The shortfall information/ documents shall be sought only in case of historical documents which pre-existed at the time of the tender opening and which have not undergone change since then. (Example: if the Permanent Account Number, registration with sales tax / VAT / GST has been asked to be submitted and the tenderer has not provided them, these documents may be asked for with a target date as above).
3. So far as the submission of documents is concerned with regard to qualification criteria, after submission of the tender, only related shortfall documents should be asked for and considered. For example, if the bidder has submitted a supply order without its completion / performance certificate, the certificate related to that supply order can be asked for and considered. However, no new supply order should be asked for so as to qualify the bidder.
4. For this purpose, maximum 1 chance of 7x24 hours duration shall be given to the bidders to upload these clarifications / shortfall documents.

The above documents will be specified on -line under the link "Upload shortfall / confirmatory document" indicating the start date and end date for on-line by bidder. The bidders will get this information on their personalized dashboard. Additionally, information shall also be sent by system generated e-mail and SMS, but it will be the bidder's responsibility to check the updated status / information on their personalized dash board at least once daily after opening of bid. No separate communication will be made in this regard. Non-receipt of email and SMS will not be accepted as a reason of non-submission of documents within prescribed time. The bidder will upload the requested documents within the specified period and no additional time will be allowed in this regard.

5. The Purchaser reserves the right to verify any of the documents uploaded by the bidder at any stage. All communication will be on e-mail and SMS basis and no separate communication will be made in this regard.

13.3 Before opening of PART-II (price bid) the bidders may be required to make a presentation, if required, to a selection committee show-casing their proposals.

13.4 PART - II of those bidders only shall be opened who qualify under PART-I.

13.5 After opening of PART-II, the bidders in the price band of L1 plus 10% shall be given counter offer to match the rate with the L1 quoted rate.

13.6 The L1 and the other bidders (within the price band of L1 plus 10%) who agree unconditionally to L1 rate shall only be considered for empanelment.

SECTION – VI:

GENERAL TERMS AND CONDITIONS

14. **GENERAL TERMS AND CONDITIONS**

- 14.1 The bidders are to submit their offers online giving reference of the RFP reference no. and date.
- 14.2 Statutory taxes i.e. GST on services, as applicable, shall be payable by the service recipient(s) on actual basis.
- 14.3 TPAs shall carry out the ACTIVITY in line with the operational and technical guidelines stipulated in BIS/FSAs/Tripartite Agreements. For any issue where consensus could not be arrived amongst the parties, the matter will be referred to Director (Marketing), CIL whose decision will be final and binding for all.
- 14.4 Bidder empaneled as TPA has to carry out ACTIVITY as per the requirement at all the subsidiaries of CIL without any exception.
- 14.5 TPA shall avoid any conflict of interest while discharging contractual obligations and bring beforehand, any possible instance of conflict of interest to the knowledge of coal companies/consumers, while rendering service in respect of the assignment. In case of suppressing any such information, the empanelment may be liable for termination.

A self-declaration in this regard on the firm/organization's letter head shall be submitted in the format provided as **Annexure-4**

- 14.6 The information, documents and data that shall come within the command of TPA in course of the work shall be confidential and the same shall not be used by the BIDDER for any purpose other than the performance of the work.

Bidder has to provide a certificate towards maintaining confidentiality on its letter head. as per **Annexure - 2**

- 14.7 BIDDER should not be on 'Holiday'/'Negative list' by CIL or Public Sector Undertaking / Government Organization (India/Abroad) (due to "poor performance" or "corrupt and fraudulent practices") or banned/blacklisted by Government department/ Public Sector (India/Abroad) on due date of submission of RFP. Further BIDDER has to submit declaration as per **Annexure -3**. RFP submitted by such Bidder shall not be considered for empanelment.
- 14.8 **Tenure of empanelment** shall be for 03 (Three) years, initially the contract shall be for 01(one) year period and on successful completion of 01(one) year, it shall be repeated for further 02 (two) year period.
- 14.9 **Performance Security:** TPA shall have to submit Performance security at the rate of 10% of the work value while executing the Tripartite Agreements. On successful completion of the work subject to other terms and conditions, the performance security shall be released after issuance of completion certificate by the competent authority.

Performance Security shall be 10% of contract amount and should be submitted in in any of the form given below :

- A Bank Guarantee in the form given in the bid document from any Scheduled bank. The BG issued by outstation bank shall be operative at its local branch at or branch at.....
- Govt. Securities, FDR or any other form of deposit stipulated by the owner and duly pledged in favour of owner.
- Demand Draft drawn in favour of Coalfields Ltd on any Scheduled Bank payable at its Branch at.....

The Earnest Money/ Bid Security deposited shall be discharged when the Bidder has signed the Agreement and furnished the required Performance Security

The bid security deposited in the form of Demand draft/ cash may be adjusted against the Performance security (1st part of security deposit) at bidder's option.

If performance security is provided by the successful bidder in the form of bank guarantee it shall be issued either –

- (a) at Bidder's option by a Scheduled Bank , or
- (b) By a foreign bank located in India and acceptable to the employer.

The validity of the Bank Guarantee shall be for a period of one year or ninety days beyond the period of contract /extended contract period (if any), whichever is more.

Failure of the successful bidder to comply with the requirement as above shall constitute sufficient ground for cancellation of the award of work and forfeiture of the bid security/ earnest money. The bidder may also be debarred from participating in future tenders in the subsidiary for a minimum period of 12 Months.

14.10 The credentials of the empaneled TPAs may be checked at regular intervals for which TPAs shall submit credentials/required documents as per instructions.

14.11 **Termination:** The empanelment of the TPA may be terminated at any time in the following cases;

- (a) If the TPA obtains the empanelment on the basis of false information/false statement.
- (b) If the TPA does not take up the ACTIVITY in terms of the agreement
- (c) If performance of the TPA is not found satisfactory.
- (d) If any fraud / embezzlement is detected subsequently and not reported by TPA
- (e) Suppressing information regarding conflict of interest

14.12 **Collection and preparation of sample** for laboratory testing should be as per relevant IS 436-part-I, Sec-I, 1964 specification or its latest version / FSA at the time of loading. Photography/videography may be done at the loading end by any party in the interest of transparency & fairness of sampling procedure for which necessary support will be provided. Sample collection & preparation will be witnessed by representative of Coal Company and consumer. However, their absence or participation for whatsoever reason, shall not be considered as a ground for disputing the result. If any party wants to raise the dispute during sampling & sub-sampling,

they may do it in writing before other parties to this contract for finding an amicable solution to the dispute.

- 14.13 **Total Moisture** - Determination of T.M. shall be done at site/nearest laboratory. For such purpose, sample of 12.5 mm shall be prepared.
- 14.14 **Parting of Sample** - Wherever satisfactory mechanical sizing facilities are available/working, sample of 212 Micron size shall be prepared. Wherever such facilities are not available, sample of 3.35 mm shall be prepared.
- 14.15 **Double Blinding of samples:** Third Party Agencies have to ensure software system based double blinding of coal samples before sending the same for analysis in a NABL laboratories.
- 14.16 **Analysis** through Automatic Bomb Calorimeter with print out facility shall be done without manual intervention and necessary records will be kept by Third Party. Third party shall communicate the analysis result of the sample within 5 working days (considering 5 working days a week) from the date of collection of sample to the Coal Company and consumer through email/fax/ other electronic mode followed by hard copy. Additionally, Third Party shall also provide results of analysis to respective coal companies (HQ/ Area) in Excel format for online updation of records.
- 14.17 **Referee Sample** shall be retained in double sealed condition duly signed by representative of Coal Company and the consumer along with the signature of Third Party representative and kept in safe custody at the loading point by Third Party for 30 days from the date of sample collection.
- 14.18 **Raising of Dispute:** Within 7 days of the submission of the result by Third Party, either party (coal company or consumer) may raise dispute which invariably will be informed to the opposite party and Third Party through e-mail. In such cases, referee sample shall be sent to any one of the six designated Govt laboratories i.e. Central Power Research Institute - Bangalore, CSIR-IMMT - Bhubaneswar, NML - Jamshedpur, CSIR-NIEST - Jorhat and IEST - Shibpur or any other Govt. laboratory that may be designate for this purpose in future. However, the choice of referee laboratory out of those empaneled, shall be done on random basis. The payment towards referee analysis will be borne by challenging party. Findings of the referee lab shall be binding on all the parties for commercial purposes.
- 14.19 **Precision/Adherence to Timeline/Non Collection of Samples/Penalty:**

Precision: The result of referee sample analysis should be within the precision of (+/-) 65 Kcal/Kg compared to the result of initial analysis of that sample done by the BIDDER.

In every sample involving referee analysis where the result of referee analysis exceeds the above tolerance limit, no sampling charges shall be paid. Further, the referee analysis charges for that particular sample shall also be recovered from the BIDDER.

Timeline: The timeline for submission of result within 5 working days by the BIDDER is to be maintained strictly and non-adherence to the timeline shall attract penalty as per the following table:

| Sr. No. | Delay (in Days) | Penalty |
|---------|-----------------|--|
| 1. | 1-2 | 5% of the total amount for that despatch |
| 2. | 3-5 | 20% of the total amount for that despatch |
| 3. | 6-10 | 50% of the total amount for that despatch |
| 4. | >10 days | 100% of the total amount for that despatch |

Non collection of samples: In case any consignment goes unsampled due to the failure of the TPA double the rate of sampling charges of unsampled quantity shall be imposed on TPA for the failure.

- 14.20 **Others:** If any consignment goes unsampled due to hurdles/problems created by any party brought out in writing by TPA, concerned Party will take corrective action to avoid re-occurrence.
- 14.21 Coal Company shall share the existing infrastructure for sample preparation and storage, among the TPAs at loading end. Any additional support, if required, for preparation of samples, has to be arranged by TPAs.

SECTION – VII:

DETAILED MODALITY OF SAMPLING

PROCEDURE FOR THIRD PARTY SAMPLING AND ANALYSIS FOR POWER CONSUMERS

1. APPOINTMENT OF THE THIRD PARTY AGENCY

The Third Party Agency will be selected randomly from the list of empaneled BIDDERS(TPAs) and notified by CIL from time to time for conducting the sampling and analysis at the Loading/Dispatch Points. The cost of sampling and analysis by TPA at the Loading Points shall be shared on 50:50 basis by the respective Coal Company (Seller) and the Consumer (Purchaser).

2. DETAILED MODALITIES FOR THIRD PARTY SAMPLING

Modalities for collection, handling, storage, preparation and analysis of coal samples and submission of the analysis results, by the TPA shall be as under:

2.1 General

- a) In order to commence third party sampling, a tripartite agreement will have to be signed amongst the Seller (First Party), the Purchaser (Second Party) and the TPA(Third Party). The format of tripartite agreement shall be provided by the Seller. Detailed terms and condition of TPA engagement / work including Referee SOP shall be in accordance with Tripartite Agreement.
- b) Collection and preparation of samples shall be witnessed only by the authorized representatives of Seller and Purchaser. In case the authorized representative of either party is not present or does not witness the sample collection and preparation activities, the said work shall be done by TPA in their absence, absence and/or failure to witness shall not be considered as a ground for disputing the result by either party. At any point of time, only one authorized representative each from Seller's side and Purchaser's side shall be allowed to be present during the sample collection and preparation activities.
- c) The TPA shall communicate the analysis result(s) of the sample(s) to the Seller and Purchaser within five (5) working days (considering 5 working days a week) from the date of sample collection. The Seller/Purchaser may raise dispute if any, against the findings of the TPA within seven (7) days after the submission of the analysis result(s), excluding the date of submission of the analysis results by the TPA.

2.2 Collection Of Samples By The Third Party Agencies:

Samples of coal shall be collected by the Third Party Agency from the Delivery Point as follows :

2.2.1 Collection of samples from loaded wagons (Rail and MGR):

- a) Rake-wise, grade-wise and TPS-wise coal supplied from one Delivery Point shall be considered as one lot, in case of supplies by rail.
- b) In case of Coal dispatches through MGR the sample collected from each rake (source wise, grade wise and Consumer wise) loaded from the respective Delivery Point during the day shall be pooled together and shall be considered as a lot for the purpose of sampling.

- c) Each lot shall be divided into a no. of sub-lots in a manner that the quantity of Coal/number of wagons in such sub-lots is more or less equal. One gross sample shall be collected from each sub-lot. The number of sub-lots shall be determined as under:

| No. of wagons in one Lot | Number of sub lots/gross samples |
|----------------------------|----------------------------------|
| Up to 30 wagons | 4 |
| >30 wagons up to 50 wagons | 5 |
| >50 wagons | 6 |

- d) Each sub-lot consists of one (1) wagon selected as per random table given in IS: 436 (Part I/Section I) 1964 for collection of gross sample/increments.
- e) In each wagon selected for sampling, the sample shall be drawn from one spot in such a manner so that if in the first randomly selected wagon, the sample is collected at one end, in the next random wagon the sampling spot will be in the middle of the wagon and in the third random wagon, the sampling spot will be at the other end and this sampling procedure shall be repeated for all subsequent random wagons.
- f) Before collecting the samples, the sampling spot will be leveled and at least 25 cm of Coal from the surface shall be removed / scrapped and the place will be leveled for an area of 50 cm by 50 cm.
- g) About 50 kg of sample shall be collected from each selected wagon in the lot by drawing 10 increments of approx. 5 kg each with the help of shovel/ scoop.
- h) Any stone/shale of size more than that specified in Schedule (of FSA) shall be removed/discarded from the sample;
- i) Samples thus collected from all the selected wagons in a lot shall be mixed together to form one gross sample per lot.
- j) In case live overhead traction line exists in the siding, TPA shall ensure that the power supply in the overhead traction is essentially switched off before commencement of sample-collection process from loaded wagons.

2.2.1 Collection of Samples of Coal Dispatches by Road:

- a) Samples shall be collected source-wise and grade-wise on daily basis round the clock, depending upon the timing of loading at respective dispatch point(s).
- b) The first truck for TPA sampling on a day shall be selected randomly from the first eight loaded trucks before weighment at the road weighbridge. Every eighth (8th) truck being loaded of the same grade in the order of loading there after shall be subjected to TPA sampling.
- c) The sampling spot at the top of the loaded truck, selected randomly, will be leveled and at least 25 cm of coal surface shall be removed/scrapped and the place will be leveled for an area of 50 cm by 50 cm for collection of sample.

- d) About 30 kg of sample shall be collected from each selected truck by drawing 6 increments of approx. 5 kg each with the help of shovel/scoop.
- e) All the samples collected source-wise, grade-wise from every 8th truck in accordance with paragraph 2.2.1 (b) as above on daily basis shall be mixed together to form a gross sample.
- f) Any stone/shale of size more than that specified in Schedule (of FSA) shall be removed/discarded from the sample.

2.2.3 Collection of Samples From Conveyor Belt/Ropeways/Pipelines

- a) Samples shall be taken lot-wise, grade-wise
- b) The quantity that passes over the conveyor in a day (00 hrs to 24 hrs) constitutes one lot, which needs to be divided into a no. of sub-lots for the purpose of sampling. No. of sub-lots to be divided & qty of gross sample to be collected from sub lots shall be as below:

| Wt. of the Lot (Tons) | No. of sub-lots/gross samples | Qty to be collected (Kg) |
|-----------------------|-------------------------------|--------------------------|
| Up to 500 | 2 | 100 |
| 501 to 1000 | 3 | 150 |
| 1001 to 2000 | 4 | 200 |
| 2001 to 3000 | 5 | 250 |
| Over 3000 | 6 | 300 |

For example:

- i) If the qty to be passed in a day over the conveyor is 600 tons (which is 1 Lot), then there will be 3 sub-lots and total sample quantity will be 150 kg
- ii) 1 gross sample shall be collected from 1 sub-lot, @ 50 kg per sub-lot. Thus, total 150 kg gross sample shall be collected from 3 sub-lots over the whole day, (from 00 hrs to 24 hrs)
- iii) If the conveyor is operated for 15 hours in a day, spacing the collection of 150 kg over 15 hours of conveyor operation, we need to collect 10 kg every 1 hour (qty & intervals can be mutually decided by seller & purchaser depending on the running time of the conveyor and the qty that passes in a day)
- c) The belt needs to be stopped at the scheduled time to facilitate collection of the samples manually.
- d) While collecting the sample, the scoop should traverse the entire cross-section of the conveyor belt, drawing approx 5kg per increment
- e) Any stone/shale of size more than that indicated in Schedule (of FSA) shall be removed/discarded from the sample.
- f) There shall be one gross sample for the day mixing all the gross samples collected from all the sub lots during a day.

2.3 Preparation of laboratory samples

- 2.3.1 The gross sample collected at the loading end by the TPA shall be divided into two portions. One portion (one fourth of the gross sample) called Part – 1 shall be used for analysis of Total Moisture and the other portion (three fourth of the gross sample) called Part – 2 for determination of ash, moisture and GCV on Equilibrated Basis.
- 2.3.2 The Part-2 Sample shall be reduced into laboratory sample. For the general procedure for reduction of gross sample and preparation of moisture sample and laboratory samples, IS : 436 (Part I/Set 1)-1964 or it's latest version shall be followed.
- 2.3.3 Final Laboratory samples shall be in the size of 12.5 mm for determination of Total Moisture and in the size of (-) 212 μ (micron) IS sieve for determination of ash, Equilibrated Moisture (at 40°C and 60% RH) and GCV. Due care shall be taken by the TPA to ensure that the final lab sample is essentially in (-) 212 μ (micron) size before the same is collected from the loading point(s) so that no further sieving or pulverizing is warranted at the laboratory before analysis. Final Lab sample shall not be handed over by the TPA in size other than that of (-) 212 μ (micron) IS sieve.
- 2.3.4 The final pulverized sample shall be divided into four equal parts viz. Set – I, Set – II, Set –III and Set – IV of 500 gms each as detailed below:
- (a) Set – I shall be taken by the TPA to NABL-Accredited Laboratory for analysis of ash, moisture and GCV (on equilibrated conditions' basis at 40° and 60% RH) as per latest BIS Standards (IS: 1350 Part 1-1984) or (IS: 1350 Part-II-1970), as applicable
 - (b) Set-II of the sample shall be handed over by the TPA to the Seller.
 - (c) Set-III of the sample shall be handed over by the TPA to the Purchaser.
 - (d) Set – IV of the sample called as Referee Sample shall be sealed jointly by the TPA in presence of authorized representatives of Seller and Purchaser and shall be kept in the custody of the TPA at the Delivery Point (Loading Point) under proper and secured arrangements. The referee sample shall be retained in double sealed condition (duly signed by TPA and the authorized representative of Seller and Purchaser for minimum of thirty (30) days from the date of sample collection, beyond which it may be destroyed after necessary details are properly recorded by TPA. For the purpose of Referee Analysis, the referee sample(s) shall be packed and transported by the TPA in a tamper proof manner, to the satisfaction of Seller and Purchaser, to the referee lab from the loading points. The Seller and Purchaser can exercise the liberty to accompany the TPA to the referee laboratory at their own expenses. The referee sample shall be analyzed in the situations specified in paragraph 2.3.6 below.
- 2.3.5 Samples shall be collected, packed and transported by the TPA to the sample preparation site(s) at the loading points in such a manner so as to make them tamper proof to the satisfaction of both the Seller and Purchaser for which detailed procedure may be worked out at the Delivery Point (Loading Point) jointly by representatives of the Seller, Purchaser and TPA.
- 2.3.6 In the event that a dispute is raised by the relevant parties within the time period stipulated at paragraph 2.1(c) above, the referee sample shall be analyzed by randomly selected from the list of designated government laboratory (other than the

Laboratory at which the original sample has been analyzed by a Third Party Agency). The analysis cost of the referee sample shall be borne by the challenging / disputing parties. The non-disputing party may witness transportation and analysis of referee sample to the above mentioned government laboratory of their own cost. The findings of such government laboratory, post analysis of the referee sample, shall be binding for Purchaser and seller.

2.3.7 Notwithstanding anything to the contrary contained herein the analysis results communicated by the Third Party Agency or the government laboratory under paragraph 2.3.4 (a) and paragraph 2.3.6 respectively, shall be binding only with respect to the samples of Coal collected for a particular day and shall not impact any past / future supply of the Contracted Grade of Coal made / to be made to the Purchaser in accordance with the terms of this Agreement

2.4 Records of Samples / Third Party sampling

2.4.1 Proper analysis records like electronic print-out of the analysis results obtained from the Automatic Bomb Calorimeter, source-wise, grade-wise and date-wise details of coal samples received, etc. shall be maintained at the Laboratories where the coal samples are analyzed by the Third Party Agency. Coal samples shall be analyzed only at an NABL-accredited coal testing laboratory owned by TPA or at NABL-accredited coal testing laboratory of subsidiary companies of CIL.

2.4.2 Name of the colliery /Siding / Purchaser, date of collection and other identification details (eg. Rake no. in case of rail supply etc.) shall be properly recorded by the Third Party Agency and a proper code number is assigned for each sample for identification and reconciliation of the analysis results.

2.4.3 Monthly statements containing the details of each and every analysis result source-wise, mode-wise, grade-wise and consumer wise, finalized during a month based on analysis by a Third Party Agency or referee analysis, as the case may be shall be prepared by the TPA and submitted to the Seller and Purchaser before the 5th of the following month stating *inter alia*, the quantity of Coal covered against the respective analysis results. Copies of the monthly statement / report shall be submitted by the Third Party Agency to (i) the General Manager (Quality Control) of the Seller or his representative; and (ii) the representatives of the Purchaser.

3. Analysis of sample(s)

3.1 Total Moisture determination shall be done by the TPA at the nearest laboratory of the Seller and remaining tests/analysis for determination of moisture, ash, GCV on Equilibrated Basis shall be done by the TPA at NABL-accredited laboratory owned by TPA or at NABL-accredited coal testing laboratory of subsidiary companies of CIL

3.2 Analysis of sample(s) shall be carried out as per latest version of IS 1350 (Part-I)-1984 for determination of Total Moisture, Equilibrated Moisture, Ash and Volatile Matter and as per latest version of IS 1350 (Part-II), 1970 for determination of GCV.

Note: In case of joint sampling, similar procedure for collection, preparation and analysis of coal sample as stated above will remain applicable with necessary changes mutatis-mutandis as illustrated below:

- i. Sample will be collected and prepared by Seller's facilities.
- ii. The final laboratory sample will be divided into two parts. First part Set-I of sample will be analyzed by seller and second part Set-II will be kept for referee analysis.
- iii. Analysis of the sample will be done in Seller's laboratory.
- iv. Cost of sampling and analysis will be borne by the seller, so there will be no requirement of sharing of cost of sampling between seller and purchaser.
- v. Cost of referee sample analysis in a designated Government Laboratory including cost of transportation of sample will be borne by the disputing party.
- vi. Purchaser shall associate / witness in throughout the collection, preparation and analysis. However, absence and / or failure of Purchaser(s) to associate / witness shall not be considered as a ground for disputing the process.

PROCEDURE FOR THIRD PARTY SAMPLING FOR NON- POWER SECTOR

1. THIRD PARTY AGENCY (TPA) UNDER DIFFERENT MODES OF SUPPLY

1.1 Third Party Agency for dispatches by Rail / Conveyor Belt/Rope Way/Pipeline

1.1.1 In case of off-take of the Contracted Grade of Coal *via* Rail / Conveyor Belt / Rope Way / Pipeline, the Purchaser may choose a third-party agency to conduct the third-party sampling from list of independent third parties provided by CIL from time to time.

1.1.2 The third-party agency chosen randomly shall conduct the third-party sampling throughout the Term / Period as applicable, provided that the Purchaser may change (on reasonable grounds) the third-party agency chosen by it with prior written approval of the Seller. In the event that the Seller does not accept the request of the Purchaser for change in the third-party agency the Purchaser shall have the option to:

- (a) terminate the arrangement for third party sampling availed by it hereunder, in which case, the Purchaser shall not be entitled to resume the third-party sampling at any time during the remainder of the Term **or**
- (b) to continue the arrangement for third party sampling for the remainder of the Term with the existing third-party agency chosen by it.

1.1.3 Third party sampling shall be done at the Delivery Point and the costs in this regard shall be borne equally by the Purchaser and the Seller.

1.2 Third Party Agency for dispatches by Road

1.2.1 In case of off-take of the Contracted Grade of Coal *via* road mode, the Seller shall choose third party agency to conduct the third-party sampling from list of independent third parties provided by CIL from time to time. It is clarified, that the Seller shall have the sole discretion and right to replace, substitute or change the third-party sampling agency chosen by it.

1.2.2 The third-party agency chosen by the Seller shall conduct the third-party sampling throughout the Term / Period as applicable, provided that the Purchaser may make a written request (on reasonable grounds) to the Seller to change the third party agency chosen by the Seller. In the event that the Seller does not accept the request of the Purchaser for change in the third party agency, the Purchaser shall have the option to:

- (a) terminate the arrangement for third party sampling availed by it hereunder, in which case, the Purchaser shall not be entitled to resume the third-party sampling at any time during the remainder of the Term **or**
- (b) to continue the arrangement for third party sampling for the remainder of the Term with the existing third party agency chosen by the Seller.

1.2.3 Third party sampling shall be done at the Delivery Point and the costs in this regard shall be borne equally by the Purchaser and the Seller.

2. DETAILED MODALITIES FOR THIRD PARTY SAMPLING

Modalities for collection, handling, storage, preparation and analysis of coal samples and submission of the analysis results, by the TPA shall be as under:

2.1 General

- a) In order to commence third party sampling, a tripartite agreement will have to be signed amongst the Seller (First Party), the Purchaser (Second Party) and the TPA (Third Party). The format of tripartite agreement shall be provided by the Seller. Detailed terms and condition of TPA engagement /work including Referee SOP/ sharing of cost of sampling etc. shall be in accordance with Tripartite Agreement.
- b) Collection and preparation of samples may be witnessed only by the authorized representatives of Seller and Purchaser. In case the authorized representative of either party is not present or does not witness the sample collection and preparation activities, the said work shall be continued by TPA irrespective of non-witnessing by either party. Absence and / or failure to witness shall not be considered as a ground for disputing the result by either party. At any point of time, only one authorized representative each from Seller's side and Purchaser's side shall be allowed to be present during the sample collection and preparation activities.
- c) The TPA shall communicate the analysis result(s) of the sample(s) to the Seller and Purchaser within five (05) days from the date of sample collection. The Seller/ Purchaser may raise dispute if any, against the findings of the TPA within seven (7) days after the submission of the analysis result(s), excluding the date of submission of the analysis results by the TPA.

2.2 Collection of Samples by the Third Party Agency

Samples of Coal shall be collected by the Third Party Agency from the Delivery Point as follows:

2.2.1 Collection of samples from loaded wagons (Rail and MGR):

- a) Rake-wise, grade-wise and consumer-wise coal supplied from one Delivery Point shall be considered as one lot, in case of supplies by rail.
- b) In case of Coal dispatches through MGR the sample collected from each rake (source wise, grade wise and Consumer wise) loaded from the respective Delivery Point during the day shall be pooled together to form a gross sample for the day.
- c) Each Rake shall be divided into a no. of sub-lots in a manner that the quantity of Coal / number of wagons in such sub-lots is more or less equal. One sample shall be collected from each sub-lot. The number of sub-lots shall be determined as under:

| No. of wagons in one Lot | Number of sub lots/ samples |
|----------------------------|--------------------------------|
| Up to 30 wagons | 4 |
| >30 wagons up to 50 wagons | 5 |
| >50 wagons | 6 |

- d) Each sub-lot consists of one (1) wagon selected as per random table given in IS: 436 (Part I/Section I) 1964 for collection of sample / increments.
- e) In each wagon selected for sampling, the sample shall be drawn from one spot in such a manner so that if in the first randomly selected wagon, the sample is collected at one end, in the next random wagon the sampling spot will be in the middle of the wagon and in the third random wagon, the sampling spot will be at the other end and this sampling procedure shall be repeated for all subsequent random wagons.
- f) Before collecting the samples, the sampling spot will be leveled and at least 25 cm of Coal from the surface shall be removed / scrapped and the place will be leveled for an area of 50 cm by 50 cm.
- g) About 50 kg of sample shall be collected from each selected wagon in the lot by drawing 10 increments of approx. 5 kg each with the help of shovel / scoop.
- h) Any stone / shale of size more than that specified in Schedule ---- shall be removed / discarded from the sample;
- i) Samples thus collected from all the selected wagons in a lot shall be mixed together to form one gross sample per lot.
- j) In case live overhead traction line exists in the siding, TPA shall ensure that the power supply in the overhead traction is essentially switched off before commencement of sample-collection process from loaded wagons.

2.2.2 Collection of Samples of Coal Dispatches by Road:

- (a) Samples shall be collected source-wise and grade-wise on daily basis round the clock, depending upon the timing of loading at respective dispatch point(s) only

from the trucks of the purchaser (s) who have opted for third party sampling (“**Purchasers Opting for Sampling**”) in the manner specified below.

- (b) The first sample of Coal shall be collected from the first truck at the Delivery Point belonging to a Purchaser Opting for Sampling. Once a sample is collected from the first truck as stipulated above, samples of Coal shall be collected from every 8th (eighth) truck after the truck from which the first sample has been collected. In the event that such 8th (eighth) truck does not belong to a Purchaser Opting for Sampling, then the next truck belonging to a Purchaser Opting for Sampling shall be deemed as the 8th (eighth) truck and a sample shall be collected from such truck. The same process shall be repeated for every 8th truck thereafter.
- (c) The sampling spot at the top of the loaded truck, selected randomly will be leveled and at least 25 cm of Coal surface shall be removed / scrapped from the top and the place will be leveled for an area of 50 cm by 50 cm for collection of sample.
- (d) About 30 kg of the sample shall be collected from each truck by drawing 6 increments of approx. 5 kg each with the help of shovel / scoop.
- (e) All the samples collected from source wise, grade wise from every 8th truck in accordance with paragraph 2.2.2(b) as above on daily basis shall be mixed together to form a gross sample.
- (f) Any stone/shale of size more than that specified in Schedule ----- shall be removed / discarded from the sample.

2.2.3 Collection of Samples of coal from Conveyor Belt / Ropeway / Pipelines:

- a) Samples shall be taken lot-wise, grade-wise.
- b) The quantity that passes over the conveyor (directly or through rope way / pipe line) in a day (00 hrs to 24 hrs) constitutes one lot, which needs to be divided into a no. of sub-lots for the purpose of sampling. No. of sub-lots to be divided & quantity of gross sample to be collected from sub lots shall be as below:

| Wt. of the Lot (Tons) | No. of sub-lots/gross samples | Qty to be collected (Kg) |
|------------------------------|--------------------------------------|---------------------------------|
| Up to 500 | 2 | 100 |
| 501 to 1000 | 3 | 150 |
| 1001 to 2000 | 4 | 200 |
| 2001 to 3000 | 5 | 250 |
| Over 3000 | 6 | 300 |

For example:

- i) If the qty to be passed in a day over the conveyor is 600 tons (which is 1 Lot), then there will be 3 sub-lots and total sample quantity will be 150 kg
- ii) 1 gross sample shall be collected from 1 sub-lot, @ 50 kg per sub-lot. Thus, total 150 kg gross sample shall be collected from 3 sub-lots over the whole day, i.e. from 00 hrs to 24 hrs
- iii) If the conveyor is operated for 15 hours in a day, spacing the collection of 150 kg over 15 hours of conveyor operation, we need to collect 10 kg every 1 hour (qty

& intervals can be mutually decided by seller & purchaser depending on the running time of the conveyor and the qty that passes in a day)

- c) The belt needs to be stopped at the scheduled time to facilitate collection of the samples manually.
- d) While collecting the sample, the scoop should traverse the entire cross-section of the conveyor belt, drawing approx. 5kg per increment
- e) Any stone / shale of size more than that indicated in Schedule ----- shall be removed / discarded from the sample.
- f) There shall be one gross sample for the day mixing all the gross samples collected from all the sub lots during a day.

2.3 Preparation of laboratory samples

- 2.3.1 The gross sample collected at the loading end by the TPA shall be divided into two portions. One portion (one fourth of the gross sample) called Part – 1 shall be used for analysis of Total Moisture and the other portion (three fourth of the gross sample) called Part – 2 for determination of ash, moisture and GCV on Equilibrated Basis.
- 2.3.2 The Part-2 Sample shall be reduced into laboratory sample. For the general procedure for reduction of gross sample and preparation of moisture sample and laboratory samples, IS : 436 (Part I/Set 1)-1964 (latest version) shall be followed.
- 2.3.3 Final Laboratory samples shall be in the size of 12.5 mm for determination of Total Moisture and in the size of (-) 212 μ (micron) IS sieve for determination of ash, Equilibrated Moisture (at 40°C and 60% RH) and GCV. Due care shall be taken by the TPA to ensure that the final lab sample is essentially in (-) 212 μ (micron) size before the same is collected from the loading point(s) so that no further sieving or pulverizing is warranted at the laboratory before analysis.
- 2.3.4 The final pulverized sample shall be divided into four equal parts viz. Set – I, Set – II, Set –III and Set – IV of 500 gms each as detailed below:
 - (a) Set – I shall be taken by the Third Party Agency to a NABL Accredited Laboratory for analysis of ash, moisture and GCV (on equilibrated conditions' basis at 40^o and 60% RH) as per latest BIS Standards (IS: 1350 Part 1-1984) or (IS: 1350 Part-II-1970), as applicable;
 - (b) Set-II of the sample shall be handed over by the Third Party Agency to the Seller
 - (c) Set-III of the sample shall (i) in case of mode other than road, be handed over by the Third Party Agency to the Purchaser; and (ii) in case of road mode, be handed over in equal portions to all of the Purchasers Opting for Sampling on that particular day; and
 - (d) Set – IV of the sample called Referee Sample shall be sealed jointly by the Third Party Agency (TPA) in the presence of the authorized representatives of each of the Parties (in case of mode other than road) or representatives of each of the Purchasers Opting for Sampling (in case of road mode), as the case may be, and shall be kept in custody of the TPA at the Delivery Point (loading point) under proper and good quality lock and key arrangement. The referee sample shall be retained in double sealed condition (duly signed by the Third Party Agency and the authorized representative of the Parties or the representatives of the

Purchaser Opting for Sampling, as the case may be) for minimum 30 (thirty) days from the date of sample collection, beyond which it may be destroyed after necessary details are properly recorded by TPA. For the purpose of Referee Analysis, the referee sample(s) shall be packed and transported by the TPA in a tamper proof manner, to the satisfaction of Seller and Purchaser(s), to the referee lab from the loading points. The Seller and Purchaser (s) can exercise the liberty to accompany the TPA to the referee laboratory at their own expenses.

- 2.3.5 Samples shall be collected, packed and transported by the TPA to the sample preparation site(s) at the loading points in such a manner so as to make them tamper proof to the satisfaction of both the Seller and Purchaser (s) for which detailed procedure may be worked out at the Delivery Point (Loading Point) jointly by representatives of the Seller, Purchaser(s) and TPA.
- 2.3.6 In the event that a dispute is raised by the party(ies) within the time period stipulated at paragraph 2.1(c) above, the referee sample shall be analyzed by a government laboratory (other than the Laboratory at which the original sample has been analyzed by a Third Party Agency). The analysis and transportation cost of the referee sample shall be borne by the challenging / disputing parties. The non-disputing party(ies) may witness transportation and analysis of referee sample to the above mentioned government laboratory of their own cost. The findings of such government laboratory, post analysis of the referee sample, shall be binding only on the challenging / disputing parties and the non-disputing parties shall be bound by the findings of the Third Party Agency.

2.4 Analysis of sample(s)

- 2.4.1 Total Moisture determination shall be done by the TPA at the nearest laboratory of the Seller and remaining tests / analysis for determination of moisture, ash, GCV on equilibrated basis shall be done by the TPA at an NABL-accredited coal-testing laboratory owned by TPA or at NABL-accredited coal testing laboratory of subsidiary companies of CIL.
- 2.4.2 Analysis of sample(s) shall be carried out as per latest version of IS 1350 (Part-I)-1984 for determination of Total Moisture, Equilibrated Moisture, Ash and Volatile Matter and as per latest version of IS 1350 (Part-II), 1970 for determination of GCV.

3.0 Records of Samples/ Third Party Sampling

- 3.1.1 Proper analysis records like electronic print out of the analysis results obtained from the Automatic Bomb Calorimeter, source wise, grade wise and date wise details of coal samples received etc. shall be maintained at the Laboratories where the coal samples are analyzed by the Third Party Agency for identification and reconciliation of the analysis results. Coal samples shall be analyzed only at an NABL-accredited coal-testing laboratory owned by TPA or at NABL-accredited coal testing laboratory of subsidiary companies of CIL.
- 3.1.2 Name of the colliery /Siding / Purchaser, date of collection and other identification details (eg. Rake no. in case of rail supply etc.) shall be properly recorded by the Third Party Agency and a proper code number is assigned for each sample for identification and reconciliation of the analysis results.

3.1.3 Monthly statements containing the details of each and every analysis result source wise, mode wise, grade wise and consumer wise finalized during a month based on analysis by a Third Party Agency or referee analysis, as the case may be, shall be prepared by the TPA and submitted to the Seller and Purchaser (s) before the 5th of the following month stating *inter alia*, the quantity of Coal covered against the respective analysis results. Copies of the monthly statement / report shall be submitted by the Third Party Agency to (i) the General Manager (Quality Control) of the Seller or his representative; and (ii) the representatives of the Purchaser (in case of mode other than road) or the representatives of all the purchaser(s) who have requested for third party sampling (in case of road mode), as applicable.

NOTE: In case of joint sampling, similar procedure for collection, preparation and analysis of coal sample as stated above will remain applicable with necessary changes *mutatis-mutandis* as illustrated below;

- i. Sample will be collected and prepared by Seller's facilities.
- ii. The final laboratory sample will be divided into two parts. First part Set-I of sample will be analyzed by seller and second part Set-II will be kept for referee analysis.
- iii. Analysis of the sample will be done in Seller's laboratory .
- iv. Cost of sampling and analysis will be borne by the seller, so there will be no requirement of sharing of cost of sampling between seller and purchaser.
- v. Cost of referee sample analysis in a designated Government Laboratory including cost of transportation of sample will be borne by the disputing party.
- vi. Purchaser shall associate / witness in throughout the collection, preparation and analysis. However, absence and / or failure of Purchaser(s) to associate / witness shall not be considered as a ground for disputing the process / results.
