- If the start bid price is Rs. 21000 and decrement value is Rs. 100, the maximum seal percentage will be 2% of 21000 i.e. Rs. 420 and upper range of reduction shall be Rs. 520 (100+420). However, as reduction has to be in multiples of decrement value, maximum reduction that can be offered by the bidder will be Rs. 500 only and hence, first reduced bid in reverse auction cannot be below Rs. 20500.*
- In the above scenario, the seal percentage for 2nd bid will be 2% of 20500 i.e. Rs. 410 and the upper range of reduction shall be Rs. 510 (100+410). Thus, maximum reduction that can be offered will again be Rs. 500 only in multiples of Rs. 100 (decrement value).*
- (j) Initial period of reverse auction will be two hours. There will be auto extension of time every time by 30 minutes in case of any reduction recorded in the last 30 minutes. The reverse auction will come to a close only when there is no further reduction recorded in the last 30 minutes slot.

Section II – Instructions to Bidders (ITB)

Since there are multiple items, auto extension will take place only for the item(s) for which any reduction has been recorded in last thirty minutes. For rest of the items for which no reduction has been recorded in the last thirty minutes, the Reverse Auction will close.

- (k) System protects bid and bidder information till auction gets over and displays current L-1 price to the bidder in auction hall.
- (l) The log details of the entire reverse auction process will be generated by the system once the process of reverse auction is completed.
For LD explosives, the bid history shall reflect only the composite price calculated as explained earlier. The individual prices of column and booster shall not be displayed during the Reverse Auction process and shall be hidden but the composite price shall be available to all the bidders after RA is over.
- (m) Break-up of Composite Price of LD Explosives: The L1 bidder after the reverse auction has to upload the breakup of the L1 Composite Price of LD Explosives online, through confirmatory link. The breakup of offered L1 Composite Price, uploaded by the bidder shall be considered and order, if placed, shall be with the same breakup of prices for LD Column and Booster/Primer. While giving the break up, the bidder will not be allowed to increase the initial quoted rate of Column or Booster. The composite price may be either equal to the price offered in reverse auction or less. The L1 bidder after reverse auction will be responsible to ensure that the Composite Price as per the breakup of prices provided by him after the reverse auction and the L1 Composite Price offered by him in the reverse auction is the same or less, otherwise it may be treated as withdrawal of offer and will attract penal action.
- (n) If a bidder does not submit his bid in the Reverse Auction, the price quoted by him in the price bid (BOQ) shall be considered as the valid price of that bidder. The status of the bidder (L1, L2 etc.) shall be evaluated considering either the bid price submitted in Reverse auction or the Price quoted in the price bid, whichever is lower.
- (o) Since, reverse auction is a sequel to e-tender, the process of finalizing the tender upon completion of reverse auction will be the same as the tender process without reverse auction.
- (p) The Auction bid history shall reflect only the composite price in case of LD Explosives.
- (q) All electronic bids submitted during the reverse auction process shall be legally binding on the bidder. The chronologically last bid submitted by the bidder till the end of the auction will be considered as the valid price bid offered by that bidder and acceptance of the same by CIL will form a binding contract between CIL and the bidder for entering into a running contract for supply of Cartridge Explosives and accessories.
- (r) Server time shall be basis of start time and closing time for bidding and shall be binding for all.
- (s) On expiry of the closing of the auction, the bid history showing all the last valid bids offered along with name of the bidders shall be published in the portal. All bidders shall have the facility to see and get a print of the same for their record.
- (t) If the lowest price received during reverse auction is unreasonable or it is unacceptable on ground of being too high or too low compared with estimated price, LPP, etc., the management reserves right to seek justification of the price from lowest bidder. If the price is not considered reasonable, management may not accept such bid and go for another tender process.
- (u) In case of disruption of service at the service providers' end while the reverse auction process (RAP) is online, due to any technical snag or otherwise attributable to the system failure at the server end, the RAP will start over again. In such situation, the last recorded lowest price of prematurely ended RAP will be the 'Start Bid Price' for the restarted RAP.

Section II – Instructions to Bidders (ITB)

The prices quoted in the prematurely ended RAP will be binding on all the bidders for consideration, if the restarted RAP does not trigger within the stipulated time.

- (v) Disruption and restarting of RAP shall be intimated to all the bidders through system/SMS/e-mail through e-procurement portal. All the time stipulations of normal RAP will be applicable to the restarted RAP.

27. Computational Errors

Computational errors will be rectified on the following basis:

- (a) If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and the quantity, the unit price shall prevail, and the total price shall be corrected. If there is a mistake in addition / subtraction of the total of unit prices, the unit price shall prevail and the total price shall be corrected.
- (b) If there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and
- (c) If there is a discrepancy between words and figures, the amount in words shall prevail.

Such types of discrepancies in the offer shall be conveyed to the bidder asking it to respond by a target date and if the bidder does not agree to Purchaser's observation, the offer is liable to be rejected and EMD will be forfeited.

28. Contacting the Purchaser

1. Subject to ITB Clause-24, no bidder shall contact the Purchaser on any matter relating to its bid, from the time of the bid opening to the time the Contract is awarded.
2. Any effort by a bidder to influence the Purchaser in its decisions on bid evaluation, bid comparison or contract award may result in the rejection of the bidder's bid.

29. Distribution of quantity

29.1 *If L1 bidder is not 'Class-I Local Supplier'-MSE, then a 'Class-I Local Supplier'-MSE participating in the tender, which is not L1 bidder but is quoting within price band of L1+15%, shall be allowed to supply 25% of the item-wise total tendered quantity, subject to matching L1 price. In case of more than one such 'Class-I Local Supplier'-MSEs, the 25% supply shall be shared proportionately.*

If 'Class-I Local Supplier'-MSE is L1 bidder, then they will be eligible for quantity as per 100% distribution clause of the NIT. If 'Class-I Local Supplier'-MSE who is L1 bidder has quoted for less than 25% of tendered quantity for that item, the 'Class-I Local Supplier' MSEs who are in L1+15% price band shall be eligible for supply of the remaining quantity of the 25% tendered quantity, subject to matching L1 price.

In case the above mentioned distribution results in 'Class-I Local Supplier' MSEs being awarded quantity less than what they would have obtained as per 100% distribution clause, then 100% distribution clause as defined by clauses-29.4 to 29.14 below shall prevail.

If the 'Class-I Local Supplier' MSEs do not match the price of L1, they are not eligible for issue of RC.

29.2 *In case no bidder is awarded purchase preference as per above clause, then any 'Class-I Local Supplier' participating in the tender who is not L1 bidder and is quoting price within price band of L1+20% shall be allowed to supply 50% of the item-wise total tendered quantity, subject to the bidder matching their quoted price to L1 price in a situation where*

Section II – Instructions to Bidders (ITB)

L1 price is from a 'Class-II Local Supplier. In case of more than one such 'Class-I Local Supplier, the supply shall be shared proportionately.

If 'Class-I Local Supplier' is L1 bidder and no purchase preference has been given to 'Class-I Local Supplier'-MSE, then the 'Class-I Local Supplier' who is the L1 bidder shall be eligible for quantity as per 100% distribution clause of the NIT. If as per 100% distribution clause, 'Class-I Local Supplier' who is L1 bidder is eligible for less than 50% of tendered quantity for that item, the 'Class-I Local Suppliers' who are in L1+20% price band shall be eligible for supply of the remaining quantity of the 50% tendered quantity, subject to matching L1 price.

If 25% order quantity has already been distributed among 'Class-I Local Supplier' MSEs as defined at clause-29.1 above, purchase preference to other 'Class-I Local Suppliers' (whether MSE or not) who are quoting in the L1+20% price band and willing to match their quoted price to L1 price, shall be for only 25% of the tendered quantity for that item.

In case 50% quantity is distributed among 'Class-I Local Suppliers' (including MSEs), then the distribution policy described below shall be applicable only for 50% of tender quantity. However, 'Class-I Local Suppliers' (including MSEs), who have already been awarded 50% of the tender quantity will not be eligible for general distribution.

In case the above mentioned distribution results in 'Class-I Local Suppliers' being awarded quantity less than what they would have obtained as per 100% distribution clause, then 100% distribution clause as defined by clauses-29.4 to 29.14 below shall prevail.

- 29.3 *If any quantity has been allotted to 'Class-I Local Supplier' (MSE or not) based on Purchase Preference, then the remaining quantity shall be treated as 100% and distributed between of [N-x] suppliers as per distribution defined under below clauses-29.4 to 29.14. Here, 'N' is the number of parallel running contracts to be concluded against each item as provided in Annexure-8 and x is the number of suppliers already eligible for purchase preference as per Clauses-29.1 and 29.2 above. In case N-x is less than '1', then the remaining quantity shall be distributed only on one supplier.*
- 29.4 *The tender quantity shall be distributed normally amongst 2/3/4/5 bidders i.e., L-1, L-2, L-3, L-4 and L-5 bidders, at L-1 price (which will be counter-offered to the L-2 to L-5. bidders) in the following manner, (L1 means the lowest bidder and L2 means the next higher bidder and so on).*
- 29.5 *In all the cases the L2, L3, L4 and L5 bidders shall have to match the L1 price to be eligible for distribution. It shall be obligatory on the part of the L2, L3.... bidders of LD explosives to match individual rates of column and booster quoted by the composite L1 bidder to be eligible for distribution.*
- 29.6 *If any of L2, L3, L4 and L5 etc. bidders do not accept L-1 price, then next higher bidders shall be given the opportunity to match the L-1 price. In such cases the L6 bidder, if agrees to match with L1 price, shall be treated as the logical L2 bidder and the L7 bidder if agrees to match with L1 price, shall be treated as the logical L3 bidder and so on till the all the logical L2, L3, L4 and L5 bidders, who agree to accept L1 price are reached .For example, if L2 does not agree to match L1 Price and L3 agrees to do so, the L3 shall be treated as logical L2 and so on.*

Section II – Instructions to Bidders (ITB)

- 29.7 *In case the sum of offered qty. of L1, L2, L3, L4 and L5 bidders is equal to the tender quantity, the distribution shall be made as per their offer qty.*
- 29.8 *In case the sum of offer qty. of L1, L2, L3, L4 and L5 bidders is less than the tender quantity, the full offered qty. of L1, L2, L3, L4 and L5 will be booked first in that sequence and the balance requirement shall be offered to L6, L7 bidders and so on at L-1 price till the full requirement is met.*
- 29.9 *In case the sum of offer qty. of L1, L2, L3, L4 and L5 bidders is more than the tender quantity, the ratio of distribution amongst L1, L2, L3, L4 and L5 bidders shall be 35:25:20:10:10 (limited to their offer qty.) respectively.*
- 29.10 *If the total combined offered quantity is more than the tendered quantity, CIL shall restrict the distribution up to L-2/L-3/L-4/ L-5, as the case may be (or logical L-3/L4/L-5) tenderers. The distributed quantity shall however be limited to the offered quantity of the various bidders (L-1, L-2, L-3, L-4 and L-5 bidders) and the total quantity in excess of the designated share of any one/more bidders over their offer quantity will be distributed in a fair and equitable manner within the group of eligible bidders (L1 to L5).*
- 29.11 *In case only four prices i.e. L1, L2, L3, L4 are obtained due to absence of L5 bidder OR L5 or higher bidder's unwillingness to match the L1 price, the RC qty. shall be distributed amongst L1, L2, L3 & L4 bidders only in the ratio of 40:30:20:10 limited to their offer qty.*
- 29.12 *In case only three prices i.e. L1, L2, L3 are obtained due to absence of L4 bidder OR L4, L5 or higher bidder's unwillingness to match the L1 price, the RC qty. shall be distributed amongst L1, L2, & L3 bidders only in the ratio of 50:30:20 limited to their offer qty.*
- 29.13 *In case only two prices i.e. L1 & L2 are obtained due to absence of a L3 or L4 bidder OR L3 or higher bidder's unwillingness to match the L1 price, the RC qty. shall be distributed amongst L1 and L2 bidders only in the ratio of 60:40 limited to their offer qty.*
- 29.14 *The above distribution pattern shall be applicable for all items, considering CIL as a whole as per the proposed number of parallel RCs for individual items indicated at Annexure-8.*

30. Reserve RC

- 30.1 Apart from conclusion of RCs with the tenderers found eligible as per terms and condition listed in the NIT, all other firms, who are techno-commercially acceptable and accept the counter offered L-1 rate for the item would be empaneled as "Reserve RC holder" for supply of cartridge explosives and accessories during the contract period by entering into a suitable contract with them. They would be contractually bound to supply explosives and accessories with the same price and terms and conditions as awarded to successful tenderers at any point of time during the contract period. However, they shall be given 15 days' time to commence supplies from the date of issue of first allocation by the Subsidiaries.
- 30.2 Accordingly, all the techno-commercially acceptable bidders will be given an opportunity to match the acceptable L1 prices against each item and if they agree, such bidders will be empaneled as Reserve RC holders as above. In case of non-supply by any of the regular RC holders within the stipulated delivery period, bidder(s) empaneled as "Reserve RC holder" will be given an opportunity to supply the undelivered quantity at the RC price & terms and conditions.

Section II – Instructions to Bidders (ITB)

Note:

- 31. Quantity variation:** CIL / subsidiaries reserve the right to increase/decrease the ordered/allocated quantity to the extent of (+/-) **40% (Forty percent)** of the RC quantity keeping in view the actual need of the subsidiary companies. In exigencies, the quantity may be increased even beyond **40% (Forty percent)**, limited to the PESO License capacity, with the specific approval from CIL. Bidders shall be required to accept the order for such higher/lower quantity at the same terms, conditions and price during the validity of the running contracts.

Note: Since CIL / subsidiaries reserve the right to increase the ordered/allocated quantity to the extent of (+) 40% (Forty percent) of the RC quantity, the bidders shall ensure PESO license capacity to meet 140% of their quoted quantity during the currency of the RC (If not already available).

32. Supply of extra quantity

- 32.1 In case of failure of a particular RC holder to supply the cartridge explosives or accessories, the unsupplied/ balance order quantity may be cancelled/reduced from the contract of the defaulting supplier after giving due notice to him and the cancelled order quantity of the defaulting supplier shall be re-distributed amongst other suppliers, including Reserve RC holders, as the case may be, within that subsidiary co. Supply of extra quantity have to be preferably on ex-stock basis.
- 32.2 The opportunity to supply extra quantity on ex-stock basis shall be given first to existing RC holders and if the requirement is not met, then to Reserve RC holders. Subsidiaries shall have the liberty to obtain extra supplies first from any/all of the RC holders and then from any/all the Reserve RC holders.
- 32.3 In case requirement of a subsidiary company exceeds the 40% of RC quantity and Regular RC holders are not willing to supply extra quantity, subsidiary company may allocate additional quantity on Reserve RC holder.

Section IV – Special Conditions of Contract (SCC)

Note: The requirement of cartridge explosives & accessories does not remain uniform throughout the year for various operational reasons, climatic and geo-mining conditions. During the peak production period [Usually Quarter I, III & IV of FY], the requirement for explosives and its accessories by the subsidiaries/ consignees may be more than the non-peak production period [Usually Quarter II of FY]. Hence, the allocation and requisition of quantity for any item by the subsidiaries/ consignees shall be made accordingly in compliance with the provision of the RC for quantities

- 9.2 The bidder shall have to supply all items as offered by him on FOR destination basis to any place in any of the subsidiaries of Coal India Limited and NEC

The delivery performance of such RE-11 with spill over delivery period shall be accounted only in the next 2 monthly period in which the delivery is to be made as per schedule.

In case the requirement changes after issuance of RE-11, the delivery performance shall be evaluated on the basis of actual quantity supplied against the **revised** requirement for a particular month, if any, intimated to supplier in writing through letter, fax, email of Unit Manager or Licensee or Issuer of RE-11.

- 9.5 In case the **two monthly** delivery performance for any of the RC items falls below 90% at any of the subsidiary company, as per report, duly signed by representative of subsidiary company and RC holder, for every percentage reduction / drop (rounded off to nearest two decimal points) in delivery performance from 90%, equal percentage of the non-supply value (without GST) of that item in that **two monthly period** shall be deducted from the bills of the supplier by the concerned subsidiary company. This will be applicable for shortfall in delivery performance from 90% upto 50%. Thus, there will be maximum 40% penalty on the non-

Section IV – Special Conditions of Contract (SCC)

supply value towards non-achievement of delivery performance.

- 9.6 In case the **two monthly** delivery performance for any of the RC item falls below 50%, maximum monetary penalty of 40% of the non-supply value (without GST) of that item in that **two monthly period** will be imposed apart from reserving CIL’s right to rescind/short close the RC for the subsequent period for that particular item in the relevant subsidiary where the shortfall occurs and the balance RC quantity thereof, may be purchased from any of the existing RC holders or empaneled “Reserve RC holders”.

Calculation of monetary penalty in terms of clauses-9.6 and 9.7 above, for different situations for an item say “Detonating Fuse”, is illustrated below;

							(E x G/100)
(A)	(B)	(C)	(D)	(E)	(F)	(G)	(H)

4	70 KM	0 KM	0	40	70 KM	294000	117600

- ❖ In case the requirement changes after issuance of RE-11, the delivery performance shall be evaluated on the basis of actual quantity supplied against the revised requirement as per Clause-9.5 above
- ❖ Value in column ‘G’ has been worked out taking unit rate of Rs. 4200.00 per KM i.e., value in column ‘F’ multiplied by Rs. 4200.00

Besides, the subsidiary company shall take action as per Clause – 32, Section-II ITB of the NIT.

- 9.7 The delivery performance report shall be duly signed by the RC holders and shall be intimated to CIL by the subsidiaries & NEC

For signing of the delivery performance report (**two monthly** under Clause 9.5 and Clause 9.6), the RC holder will be intimated by letter/fax/e-mail to sign within 3 (three) days from the date of intimation by the subsidiary Co & NEC. If the RC holder / authorized representative fails to sign the said delivery performance report within the stipulated time, it will be deemed that the RC holder has accepted the same and no further communication from the RC holder will be entertained by the subsidiary Co. /CIL in this regard.

A) Testing by CMPDIL

[All sample quantities are to be calculated based on Subsidiary allocation by CIL on a particular supplier on annual basis].

- a. **Permitted Explosives and Large Dia Explosives:** One sample to be taken for the first 200 tonnes and subsequently for every 300 tonnes, one additional sample is taken. For example, a supplier whose annual allocation for permitted / LD explosives is 1600 tonnes, a total of six ($1+1400/300= 6$) samples is suggested.
- b. **Detonating Fuse:** One (1) sample for every one lakh mtrs.

Section VI – Technical Section including Specifications (TSS)

- c. **Detonators (CED, CDD):** One (1) sample for every 2.5 lakh nos.

 - ii) PF for OB in shovel-dumper bench (Separate PF for 42 CuM Shovel)
 - iii) PF for OB in dragline bench
 - b) PF for UG mines
 - i) PF for coal in development district.
 - ii) PF for coal in depillaring district.
- 11.2 Benchmark powder factor for the first financial year effective from RC start date shall be annual average of the achieved powder factor for the financial year 2022-23. Benchmark Powder factor for the 2nd financial year 2024-25 shall be annual average of the achieved Powder factor for the financial year 2023-24 and Bench mark powder factor for remaining period of proposed RC during financial year 2025-26, if any, shall be annual average of the achieved Powder factor for the financial year 2024-25.

Bench mark powder factor for the 1st financial year will be communicated while issuing the RCs. However, for the purpose of information, the annual average of the achieved powder factor for the financial year 2021-22 is enclosed as Annexure 5.

Section VI – Technical Section including Specifications (TSS)

Bench mark powder factor for 2nd financial year 2024-25 and for remaining period of proposed RC during financial year 2025-26, if any, shall be circulated by subsidiary companies directly to the suppliers with the approval of CMD of subsidiary company.

- 11.3 The mine wise achieved powder factors shall be declared by the subsidiaries *for every month and suitably be communicated to RC holders by mail/fax/letter*. The method of calculating the achieved powder factor shall be by the same method by which benchmark powder factors are calculated.
- 11.4 Bidder shall confirm that explosives supplied by them shall achieve the mine-wise benchmark powder factors indicated in RC during the period of the contract. Failure to achieve the benchmark powder factors shall attract penalty as detailed in ‘Performance and Penalty’ clause of NIT.
- 11.5 In case of new underground mines, new seam of existing underground mine or change in method of work i.e. development/depillaring in the same mine, change in geo-mining conditions and in case of new opencast mines i.e. new projects/patches including outsourcing and hired HEMM patches, which may come up during the tenure of the contract and for which benchmark powder factor is not communicated with the RCs, the subsidiary shall formulate the powder factor as follows:
- a) Bench Mark PF shall be determined through a committee consisting of representatives from Sub Co. and CMPDIL.
 - b) For second year, the Average PF achieved in previous year shall be fixed as Bench Mark PF.

All Bench Mark Powder Factor determined above should have approval of CMD of the subsidiary company.

Only one PF shall be applicable during a financial year of contract for any OC mine [separate for Coal & OB (Departmental / Outsourcing patches)] irrespective of different types of explosives.

- 11.6 Mine wise benchmark PFs may be reviewed by the CMD of the Subsidiary Companies in consultation with CMPDIL on Financial Year basis, during the tenure of the contract, if the PF deduction/bonus at such mines exceeds 20% of the price of explosives. The revised PF, if any, shall apply during the tenure of the contract.

The supplier has to lodge claim within three months of completion of the relevant year in case the deduction exceeds 20% of the price of the explosives. The claim of the supplier shall be settled by subsidiary company by the succeeding three months of the claim. Claim made by the suppliers after the above period, shall not be entertained.

If bonus exceeds 20% of price of explosives, the Sub. Co. shall initiate review immediately after completion of the relevant year.

- 11.7 For new powder factors as well as review of existing powder factor cases explained above, CMD of the subsidiary company is empowered to issue the necessary amendment to the RCs to incorporate the new/revised powder factors without referring the matter to CIL.

- 11.8 Supply of accessories shall be exempted from powder factor clause.

Section VI – Technical Section including Specifications (TSS)

12. Performance & penalty

- 12.1 The mine-wise achievement of powder factor should not be less than the benchmark powder factors specified in the RC. The method of calculating the achieved powder factor shall be by the same method by which benchmark powder factors are calculated. For every percentage decrease in powder factor of Coal/OB compared to the benchmark powder factors as provided in the RC, same percentage deduction of the price (without GST) of explosives shall be made.
- 12.2 In case the achieved powder factor is above 105% of the benchmark powder factor, then Bonus may be paid @ 0.3% (zero point three percent) of the price of explosives (without GST) for every percentage increase in powder factor over 100% of the benchmark. Thus for achievement of powder factor between 100% to 105% of the benchmark, there will be no bonus.
For e.g. when achieved PF is 106%, bonus to be paid will be equal to $0.3\% \times 6 \times \text{Price of the explosives}$.
- 12.3 In the event of failure of blast, the cost of explosives/accessories used in the blast and drilling cost will be recovered from the respective defaulting supplier(s). In case of blast failure, initially proportionate deduction (proportionate to value) will be made for both explosives and accessories. After investigating into the cause of failure as to which item (explosive or accessories) is responsible for the failure, final deduction will be made accordingly.
- 12.4 The bench mark Powder Factors mentioned in the RC shall also apply in case of explosives supplied to contractors in outsourcing patches (wherever separate Powder Factors for outsourcing patches are not indicated), if the explosives purchased by CIL is used in such patches with the condition that only the net cost of explosives and accessories (after deduction on account of powder factor) is recovered from the outsourcing contractor.
- 12.5 The payment shall continue to be made as per RC terms and provisional deduction, if any, on account of non-achievement of PF shall be made only on quarterly basis. However, the final assessment of Powder factor and reconciliation thereof shall be made on financial yearly basis including extension/short-closure, on average powder factor basis. Bonus shall be paid in the same way as that of penalty.
- 12.6 Deduction due to non-achievement of powder factor shall be made from the price of explosives only and not from accessories prices.
