## कोरोना की संभावित तीसरी लहर

# कोल इंडिया ने कसी कमर, तैयार किए कोविड केयर बेड

हरिभूमि न्यूज १११ कोरबा

कोलइंडिया कोरोना की तीसरी लहर से मुकाबला करने के लिए सहायक कंपनियों में चिकित्सा के बुनियादी ढांचे और ऑक्सीजन सिलिंडर की उपलब्धता को तैयार करके अपने कर्मचारियों की सुरक्षा के लिए अलर्ट है। देश में कॉरपोरेट द्वारा तैयार कोविड केयर आइसोलेशन बेड में सबसे उच्चतम संख्या कोलइंडिया की है।

कोलइंडिया ने लगभग 2 हजार ऐसे बेड स्थापित किये हैं जिसमें आइसीयू बेड, आइसोलेशन बेड तथा ऑक्सीजन सपोर्ट के साथ

एडवर्ड पोटे

कोविड केयर बेड शामिल हैं। ऑक्सीजन सपोर्ट बेड की संख्या 750 है जबकि आइसीयू बेड की

संख्या लगभग 70 है। इसके अतिरिक्त कोलइंडिया की कोयला कंपनियों ने कोविड राहत उपायों को

तैयार करने के उद्देश्य से फंडिंग एवं बेड उपलब्ध कराने के लिए स्थानीय अस्पतालों तथा राज्य सरकारों के साथ करार किया है। उपवोग के लिए तैयार लगभग 2 हजार ऑक्सीजन सिलिंडर के साथ आपातकालीन उपयोगिता उपकरण को बढ़ाया गया है तथा 70 वेंटिलेटर चालू स्थिति में हैं। तीन अनुपंगी कंपनियां जीवन रक्षक तत्व की कमी को पूरा करने के लिए ऑक्सीजन उत्पादन संयंत्र स्थापित करने पर विचार कर रही हैं। किसी भी आपातकालीन परिस्थिति से निपटने के लिए चिकित्सा सुविधाओं को और बढ़ाने के लिए

योजनाएं बनायी गयी हैं। कोलइंडिया और कोयला कंपनियों में स्थिति पर बारीकी से नजर रखी जा रही है। कोविड का मुकाबला करने के लिए दवाओं, बिस्तरों और अन्य सामग्रों को बढ़ाने की योजना पर काम किया जा रहा है। कोलइंडिया ने निर्धारित किया है कि अनुबंध कर्मचारियों का वेतन कम न किया जाए, लॉकडाउन की स्थिति में भी, उन्हें पूरी मजदूरी सुनिश्चित की जाती है, कोलइंडिया ने कोविड से मृत्यु के मामले में संविदा कर्मियों सहित कर्मचारियों के परिजनो को 15 लाख रुपये का भुगतान करने का भी ऐलान किया है।

## Coal India Q1 profit jumps 53% to ₹3,174 crore

**OUR BUREAU**

Kolkata, August 10

Riding on the back of higher sales, Coal India (CIL) registered a 53 per cent rise in consolidated net profit at ₹3,174 crore for the quarter-ended June 30 compared with ₹2,077 crore in the same period last year. Consolidated revenue from operations increased 37 per cent to ₹25,282 crore during the period under review compared with ₹18,487 crore last year. On a sequential basis, net profit fell 31 per cent from ₹4,589 crore in January-March quarter of last fiscal. Total expenses increased 31 per cent in the April-June quarter at ₹21,626 crore (₹16,471 crore).

Production was up marginally by two per cent at 123.98 million tonne (mt) during the quarter under review. Sequentially, production was down 39 per cent from 203.42 mt during the January-March 2021 quarter. Coal off take during the quarter was up 33 per cent at 160.44 mt (120.80 mt).

### Coal sales

The country's largest miner sold around 127.48 mt of coal through FSA (Fuel Supply Agreement) route clocking net sales of ₹17,771 crore at an average realisation of ₹1,394.06 a tonne. It sold around 30.19 mt of coal through e-auction route at an average realisation of ₹1,569.05 a tonne.

On a standalone basis, Coal India registered a net loss of ₹50 crore for the quarter, compared with a net profit of ₹12 crore in the same period last year. The drop in profit is mainly on the back of suspension of mining operations at NEC (North Eastern Coalfields) in Assam.

# CIL gets high premium from e-auction sales to coal importers

**FE BUREAU**  
Kolkata, August 12

**COAL INDIA'S (CIL) SPECIAL** spot e-auction meant exclusively for coal importers fetched the company a 52% add-on over the notified price for the April-June period this fiscal, owing to soaring international prices that touched an average \$146 per tonne across categories as of Thursday.

Almost the entire 1.6 million tonne offered to coal importers in July was booked, giving an impetus to CIL to offer more quantity in this category.

The increasing cost of coal sourced from overseas meant that coal importers booked 70% of the 2.4 MT offered to them under the special spot e-auction during April-July.

E-auction bookings across all five windows for the first quarter fetched the PSU miner ₹4,700 crore, with 30.2 MT sold via e-auction as against 15.9 MT booked during the same period last fiscal. Revenue from e-auction sales witnessed a year-on-year jump of 87%, a CIL executive said.

At 35.5 MT, the e-auction allocation in the first quarter under all five auction categories was higher by nearly 8 MT or 28.6% than the allocation in the same period a year ago.

Under the exclusive auction

for non-power consumers, the allocation was 1.18 MT during the first four months of the current fiscal, logging growth of around 69%. It will help consumers of this segment increase their blending percentage and cap the coal cost in production. Non-power consumers booked 7 MT during the same period last fiscal.

The power sector clocked 37.5% growth under the special forward auction at 11 MT during the reviewed period. The sector booked 8 MT during the corresponding period a year ago.

For the month of July, CIL allocated 8.3 MT compared to 5.8 MT in June. Auction bookings in a month grew by 43%. Allocations for e-auction in July this year were 9% higher than those in the same month last year.

"Premiums over notified value are improving with revival in coal sales. Enhanced volume sales coupled with add-ons would lead to a positive impact on the company's bottom line," a company executive said.

## **CIL's e-auction allocation up 29% in Apr-Jul this year**

PRESS TRUST OF INDIA

**New Delhi, August 12:** State-owned Coal India Thursday said its e-auction allocation stood at 35.5 million tonnes (MT) during April-July 2021 under five auction categories, registering a sharp 28.6 per cent increase over the same period a year ago. Its e-auction allocation was 27.6 MT in the corresponding four months of the 2020-21 fiscal.

Coal India Ltd's (CIL) actual e-auction net sales were worth over ₹4,700 crore during the first quarter of the ongoing fiscal, posting a jump of 87 per cent year-on-year.

The sale volume was 30.2 MT in the June quarter this fiscal as against 15.9 MT in the same period last year when the pandemic slowed down the sales, it said in a statement.

With international coal prices spiraling upwards with no signs of let up, consumer preference for domestic coal is seemingly gaining ground, it said.

The effect of ascending cost of coal sourced from overseas was evidenced in the country's coal importers booking 70 per cent of the total quantity of 2.4 MT offered to them under their special spot e-auction during April-July. The add-on over the notified price under this category was 52 per cent.

Interestingly, for the month of July almost all the quantity of 1.6 MT offered to coal importers under exclusive special e-auction window was booked.

# Coal India Sets ₹17kcr Capex Target for FY22

**Press Trust of India**

**Kolkata:** Coal India has set a capital expenditure target of ₹17,000 crore for the FY22, which is around ₹4,000 crore more than its spending last year, an official said on Sunday.

The miner is expecting an improvement in cash flow with rising demand for coal and higher realisation from e-auction sales, he said.

“The total capex for this year is ₹17,000 crore. This investment includes infusing of ₹3,000 crore in Hindustan Urvarak and Rasayan (HURL) and Talcher Fertilisers and spending of ₹1,000-1,500 crore for railway line construction through a joint venture company,” the CIL official told PTI.

The state-owned miner had revised its capital expenditure budget to ₹13,115 crore for the 2020-21 fiscal from its initial estimate of ₹10,000 crore.

In view of the Covid-19 pan-

demic, the Centre had directed PSUs to ramp up their capital expenditure to spur growth in the economy.

Hindustan Urvarak and Rasayan, comprising CIL, NTPC, Indian Oil Corporation, Fertilizer Corporation of India (FCIL) and Hindustan Fertilizer Corporation (HFCL), was incorporated in 2016 as a joint venture entity.

HURL is involved in setting up of natural-gas based 1.27 MTPA urea plant on the premises of closed fertiliser units of FCIL at Gorakhpur in Uttar Pradesh and Sindri in Jharkhand and that of HFCL at Barauni in Bihar.
