तकनीक उन्नत करने में 13 हजार करोड़ रुपये खर्च करेगा कोल इंडिया

सन्मार्ग संवाददाता

सांकतोड़िया : कोल इंडिया प्रबंधन ने पूंजी व्यय क्रेन, माल उठाने और लदान में उपयोग होने वाली मशीनरी (अर्थ मूविंग मशीनरी) खरीदने, रेलवे लाइन बिछाने के लिए 13000 करोड़ रुपया खर्च करेगी इसके लिए सारी प्रक्रिया पूरी कर ली गई है। सूत्रों का कहना है कि खोज कार्यों और संयुक्त उद्यमों में निवेश कोल इंडिया लिमिटेड (सीआइएल) कंपनी में पूंजी प्रवाह से जुड़े मुद्दा होने के बावजूद चालू वित्त वर्ष में दिसंबर 2020 तक 8000 करोड़ रुपये पूंजी व्यय कर चुकी है। कंपनी

2020-21 के अंत तक 13 हजार करोड़ रुपये के संशोधित लक्ष्य को पूरा करने पर ध्यान दे रही है। कोल इंडिया के एक अधिकारी ने बताया कि वित्त वर्ष 2020-21 के लिए पूंजी व्यय लक्ष्य शुरू में 10,000 करोड़ रुपये था, जिसे संशोधित कर 13,000 करोड़ रुपये कर दिया गया है। सरकार ने सार्वजनिक क्षेत्र की कंपनियों को कोविड-19 महामारी और उसकी रोकथाम के लिए लगाए गए 'लॉकडाउन' से प्रभावित अर्थव्यवस्था को गति देने के लिए पूंजी व्यय बढ़ाने का निर्देश दिया है। कंपनी के अधिकारी ने कहा कि हमारे आंतरिक लक्ष्यों को पूरा करने के लिये सरकार ने पूंजी व्यय लक्ष्य बढ़ाकर 13,000 करोड़ रुपये कर दिया है। उसने कहा कि हम दिसंबर 2020 तक 8,000 करोड़ रुपये पूंजी व्यय कर चुके हैं और निश्चित रूप से 10,000 करोड़ रुपये का स्तर पूरा करेंगे। हम नए लक्ष्य को पूरा करने का प्रयास करेंगे, क्योंकि इससे अर्थव्यवस्था को गति देने में मदद मिलेगी।

कोल इंडिया को इ-ऑक्शन से सर्वाधिक बिक्री की आशा

कोलकाता. कोयले के इ-ऑक्शन में उछाल से उत्साहित कोल इंडिया को आशा है कि मौजूदा वित्त वर्ष में नीलामी से 120 मिलियन टन तक बिक्री हो जायेगी. यह अब तक हुई नीलामी में सर्वाधिक बिक्री होगी. कंपनी के एक वरिष्ठ अधिकारी के मुताबिक नीलामी की बिक्री ने उनके पूर्व के अनुमानों से बेहतर किया है और मौजूदा वित्त वर्ष के अंत तक इसके लिए 120 मिलियन टन का आवंटन किया जायेगा. कोल इंडिया लगातार ई-ऑक्शन के जरिये कोयले की अधिक बिक्री पर जोर दे रही है. गत वर्ष दिसंबर तक कोल इंडिया ने नीलामी के पांच विंडो में 81.4 मिलियन टन कोयले को बुक किया था, जो कि समान अवधि में एक वर्ष पहले 46.2 मिलियन टन था. कोल इंडिया के अधिकारी ने बताया कि इसीएल, बीसीसीएल, सीसीएल और एसइसीएल के संबंधित खदानों को चिह्नित कर लिया गया है, जहां ई-ऑक्शन की प्रतिक्रिया सकारात्मक है.

CIL's e-auction booking to hit all-time high of 120 MT

FE BUREAU
Kolkata, January 6

MINING BEHEMOTH COAL

India (CIL) may close the current fiscal, booking 120 million tonne (MT) coal for e-auction, the highest ever since coal sales began through the auction route. This is near double the bookings of 66 MT made for e-auction last fiscal, surpassing the company's earlier estimates of e-auction booking for the ongoing fiscal.

A CIL official said, "the company booked 13.1 MT for e-auction during December this fiscal. Even if the same amount is booked each month for the remaining three months this fiscal, e-auction booking will cross 120 million tonne."

CIL booked around 11% of its total production at 602 MT, for e-auction in 2019-2020. If CIL is able to reach its production target of 660 MT, e-auction bookings will be more than 18% this fiscal.

According to a company

official, CIL's efforts to book increased volumes of coal under e-auction, paid off in bolstering sales revenue. In the Covid-induced pandemic additions over the notified price were narrowed down helping the company scoring a strong 76.2% volume growth during the April-December period.

The PSU miner booked 81.4 MT coal under five auction windows progressively up to December, displaying a robust 35.2 MT volume expansion compared to 46.2 MT it booked the same period a year ago. Beginning October of the current fiscal, CIL introduced special spot auction for coal importers, under which it had already booked 7.3 MT in three months.

Premium over notified price

has also been gaining steadily since October with CIL as whole netting a 15% premium during April-December period.

Among the subsidiaries, Eastern Coalfields clocked the highest 40% increase over the notified prices followed by Central Coalfields and Bharat Coking Coal, registering 23% and 22% premium over the notified prices, respectively.

"We have identified specific mines in ECL, BCCL, CCL and SECL from where the response has been positive" a CIL executive said. Non-power sector consumers, under an exclusive auction window, booked 19.8 MT during the first nine months of the ongoing fiscal against 6.8 MT the sector booked during the same period a year ago, registering a three-fold increase.

For December, the company allocated 13.1 MT of coal surging ahead with 72% growth compared to 7.6 MT booked during December last fiscal. Premium earned over the notified price was 25%.

Coal India to cross 650 mt production target in FY 20-21

BHUBANESWAR: Coal India Ltd would cross the 650 million tonne production mark during financial year 2020-21, Chairman Pramod Agrawal said on Friday.

Coal India produced 405 million tonne coal by the third financial quarter ending December 31, 2020, which has a contribution of 101.8 million tonne from Odisha-based Mahanadi Coalfields Ltd (MCL).

The CIL chief said there is need to produce more coal as demand for dry fuel is expected to rise post-Covid-19 pandemic.

Agrawal, who was on a day-long visit to the MCL's Talcher coalfields, inspected mining and coal evacuation operations there.

He said Coal India is giving much emphasis on increasing production as it committed to fulfil the energy needs of the country.

"Need of the country is to produce more and more coal," Agrawal said, highlighting rising demand for coal to meet energy requirement for revival of industry post-Covid-19 restrictions.

There was a sudden fall in demand of coal due to pandemic, which had forced subsidiaries to

slow down production and focus on other related works like removal of overburden and strengthening of infrastructure for coal transportation.

He appreciated MCL for commendable growth in all the major parameters of production, despatch and overburden removal.

"MCL has done very good till now, but more challenges are ahead," said Agrawal, who also laid the foundation stone of Bhubaneswari coal handling plant (CHP) Phase II, which is part of First Mile Connectivity (FMC) projects in MCL.

Bhubaneswari CHP Phase-II, having estimated cost of Rs 247 crore, will have coal handing capacity of 15 million tonne per annum.

MCL Chairman-cum-Managing Director P.K. Sinha, along with Director (Technical/Operations) O.P. Singh and Director (Personnel) Keshav Rao accompanied the Chairman during his visit.

Earlier at a meeting with the leaders of MCL's trade unions, Agrawal appreciated their constructive role towards growth of the country.

Coal demand expected to rise post Covid-19 pandemic: Coal India Chairman Agrawal

PBD BUREAU

TALCHER, JAN 8

AS demand for the dry fuel is expected to rise post-COVID19 pandemic, there is a need to aggressively ramp up coal production in the country, said Pramod Agrawal, Chairman, Coal India Limited today.

Agrawal, who was on a day-long visit here in Mahanadi Coalfields Limited (MCL), inspected mining and coal evacuation operations at Talcher coalfields.

Coal India is committed to fulfil the energy needs of the country and is giving much emphasis on increasing production, the Chairman said.

“Need of the country is to produce more and more coal”, Agrawal said while highlighting the rising demand for coal to meet energy requirements for revival of industry post COVID19 restrictions.

There was a sudden fall in demand of coal due to pandemic, which had forced subsidiaries to slow down production and focus on other related works like removal of overburden and strengthening of infrastructure for coal transportation, he said.

On production, the

Chairman said Coal India would cross the 650 million tonne production mark during financial year 2020-21.

He appreciated MCL for commendable growth in all the major parameters of production, dispatch and overburden removal. Coal India had produced 405 million tonne coal by the third financial quarter ending December 31, 2020, which has a contribution of 101.8 million tonne from Odisha-based MCL.

“MCL has done very good till now, but more challenges are ahead,” said Agrawal, who also laid the foundation stone of Bhubaneswari coal handling plant (CHP) Phase II, which is part of First Mile Connectivity (FMC) projects in MCL.

Bhubaneswari CHP

Phase-II, having an estimated cost of Rs 247 crore, will have coal handling capacity of 15 million tonne per annum.

PK Sinha, Chairman-cum-Managing Director, MCL along with OP Singh, Director (Technical/Operations) and Kehav Rao, Director (Personnel), MCL accompanied the Chairman during his visit.

The Chairman inspected coal mining and despatch operations at Bhubaneswari OCP, SILOs in Lingaraj Area, Bharatpur Area and Hingula Area in Talcher coalfields.

Earlier, at a meeting with the leaders of trade unions, Agrawal appreciated trade unions in MCL for their constructive role towards growth of the country.

Coal demand to rise in post-Covid period: CIL chief

Bhubaneswar, Jan 8: Coal production in the country needs to be scaled up as demand for the dry fuel is expected to rise with increasing economic activities in the post-Covid era, an official said on Friday. Coal India Ltd chairman and managing director Pramod Agrawal said the miner is emphasising on raising its output as it is committed to fulfil the energy requirement of the country.
