OFFICE MEMORANDUM

Sub: Coal stock shortage cases.

It has been brought to the notice that coal stock shortage is being detected in a few mines, out of which some of them could be on account of over reporting under pressure to meet the production target. As the field officials in mine/area suffer after detection of such cases, such practice of over reporting, if any, must be discontinued forthwith. If it is detected that pressure has been exerted on the field officials to over report the production, it will be liable for disciplinary action.
