Shovel/R-140/21-22/373 dated 24.05.2021 for Supply, Installation and Commissioning of 4 nos. of 10 - 12 CuM Diesel Hydraulic Face Shovels, 5 nos. of 10 - 12 CuM Diesel Hydraulic Backhoe Shovels and 1 no. 10-12 CuM Electric Hydraulic Face Shovel of along with Consumable Spares and Consumables for 12 months of warranty period from the date of commissioning of the equipment and thereafter Spares and Consumables for a period of 5 years under Spares Cost Cap is issued to the following extent :-

Sl No.	NIT Clause no.	Existing Clause Description	Amendment
1	Clause no.C.6.2.1(iv) of Technical Specifications of NIT (item 1, 2 & 3)	For subsequent years during the contract period, the supplier may continue with the same approved Price List or submit the next Price List (in hard copy duly signed as well as in soft copy) which may include items with alternate part nos., if any. However, no new item shall be included.	The following para is added in Clause no. C.6.2.1(iv) of Technical Specifications of NIT:- “Further, if for the compliance of any statutory, regulatory or environmental regulation or guidelines from DGMS or other institutions / GOI, the new parts for compliance of such regulations may be included in the price list with documentary evidence related to implementation of such guidelines. Otherwise, no new item will be included.”
2	SECTION VI: Technical Specifications clause D.4.3 Engine of Technical Specifications of NIT(item 1 and item2)	The engine shall have a water jacket cooling system, thermo-statically controlled, using an engine driven water pump, with the cooling water re-circulated through a heavy-duty radiator. The system shall be capable of providing sufficient cooling to allow the dumper to continuously operate at full rated output at the maximum ambient temperature. The radiator cap shall be fastened with body with the help of suitable chain/locking arrangement.	“Dumper” will be replaced by Excavator.
3	SECTION VI: Technical Specifications clause D.4.3 Engine (item 1 and item2) of Technical Specifications of NIT	The engine shall be environment friendly with minimum BS IV or equivalent international standard certified. However, higher environmental standard, if any, shall be applicable as per notification of Govt. of India at the time of supply. Certificate for BS IV or equivalent from engine manufacturer is to be enclosed.	The clause is amended as “The engine shall be environment friendly with minimum BS IV/ EPA Tire II or equivalent international standard certified. However, higher environmental standard, if any, shall be applicable as per notification of Govt. of India at the time of supply. Certificate

			for BS IV/ EPA Tire II or equivalent from engine manufacturer is to be enclosed.”
4	SECTION VI: Technical Specifications clause D.4.10 Operator's Cab (Item 1) & (Item 2) of Technical Specifications of NIT	All operating controls, all monitoring, working signals and emergency power isolation switch to trip the field switch should be conveniently located in consoles within easy reach of the operator and shall comply with IS/ISO 6405 Part-1, IS/ISO 6405 Part-2, IS 11252/ISO 6682 & IS/ISO 10968.	The clause may be amended as “ All operating controls, all monitoring and working signals should be conveniently located in consoles within easy reach of the operator and shall comply with IS/ISO 6405 Part-1, IS/ISO 6405 Part-2, IS 11252/ISO 6682 & IS/ISO 10968”.
5	SECTION VI: Technical Specifications clause D.6 Productivity & Health monitoring system (Item 1), (Item 2)& (Item 3) of Technical Specifications of NIT	The equipment shall be provided with suitable licensed, on-line, real time, monitoring interface facility, compatible for GPS-based transfer of equipment performance data (commonly known as PMS and HMS) to third party equipment management system.	GPS may be replaced with GPS / GPRS. The clause may be amended as “The equipment shall be provided with suitable licensed, on-line, real time, monitoring interface facility, compatible for GPS / GPRS based transfer of equipment performance data (commonly known as PMS and HMS) to third party equipment management system.”
6	Clause no.8.3.1 of SCC of NIT	INR Component of Equipment 80% payment of the INR component of CIP value of the equipment and 100% taxes and duties and other charges including Port Charges, Clearing & Forwarding Charges and incidental charges, Inland Freight charges, Inland insurance charges and all indigenously sourced items required for fitment in the equipment during commissioning but excluding erection and commissioning charges shall be made within 21 days after receipt and acceptance of equipment at site at the consignee's end and submission of either (a) Performance Bank Guarantee having validity till 3 months after the completion of 6 years from the date of commissioning of all the equipment covered in the contract; or (b) Copy of validity extension of SDBG, in case SDBG is converted into PBG at the option of the supplier, till 3 months after the completion of 6 years from the date of commissioning of all the equipment covered in the contract. In case of non-submission of PBG or converted SDBG, payment may be made after deducting equivalent amount as PBG on specific request of the Supplier.	The clause may be amended as “80% payment of the INR component of CIP value of the equipment and 100% taxes but excluding erection and commissioning charges shall be made within 21 days after receipt and acceptance of equipment at site at the consignee's end and submission of either (a) Performance Bank Guarantee having validity till 3 months after the completion of 6 years from the date of commissioning of all the equipment covered in the contract; or (b) Copy of validity extension of SDBG, in case SDBG is converted into PBG at the option of the supplier, till 3 months after the completion of 6 years from the date of commissioning of all the equipment covered in the contract. In case of non-submission of PBG or converted SDBG, payment may be made after deducting equivalent amount as PBG on specific request of the Supplier.”

All other terms and conditions of the NIT remains unchanged.
